March 1, 1939

Mr. Max Missell,
Portis, Kansas.

Dear Max:

Congratulations on your selection as a member of the all-star County Tourney team. I am very sure that your father is about the happiest man in Portis, and you have reason to be happy over your achievement.

I wish that you and your dad might have seen some of our fine games at home this season. We have had a badly crippled Ralph Miller and he has not been able to give all of himself to the team as he could have had he not been injured in football. However, that is all over the dam and we are leaving this afternoon to meet the Tiger in his lair at Columbia on Thursday night. The game will be broadcast over WREN and I thought perhaps you might want to listen in. The game is called at 8 o'clock.

Again congratulating you and wishing you the best of health and happiness, and hoping that you have decided to make the University of Kansas your choice of schools, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Kappa Kappa Gamma,
Gower Place,
Lawrence, Kansas.

Dear Friends:

The varsity basketball team and their coach appreciate your thoughtfulness and loyalty in wiring your best wishes for our possible success against Missouri.

Six words describe it best - they couldn't miss, we couldn't hit. But it made a hit with our boys for you to wire them. All of them saw the wire, and although it was not delivered until after the game, I brought it to their attention. Thank you so much. We are sorry we could not win for you.

Cordially yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.

Gene Kemper - in The Topeka Daily Capital - Feb. 3, 1939.

From sources well within the inner circle, you can hear that the new chancellor at the University of Kansas will be a man with at least a wholesome approach to the program of physical education and intercollegiate athletics.

Fortunately, several members of the present board of regents — the body empowered to name the new chancellor — are familiar with athletic problems at Lawrence. They have participated in investigations which disproved past policies and have taken active part in bringing about such reforms as longer contracts for coaches, appointment of assistants by head coaches, and the delegation of full executive authority to the athletic director. But more than that, they know of conditions which still must be remedied and, apparently, they will look to the new appointee to carry out their further desires.

Of course, as my informant says, the examining committee is not being brusque in the matter. They are after an educator first. But plenty of educators have a wholesome respect for physical education in the curriculum and competitive sports in the extra-curricular activities. By alluding to the approximate $150,000 stadium debt and related athletic problems at Kansas -- if not by direct questioning -- the examiners are finding out just how each candidate stands. Along with his other credentials, they want to know his perspective on athletics and how it will conform at a school with the conditions, enrollment and associations of the University.

Several of the regents are known to be sympathetic toward athletics. Undoubtedly, they have ideas about the Kansas situation which the new man will have to see their way. But these regents are not men who would permit the scholastic reputation of the university to suffer at the expense of athletics. In fact, my informant says that applicants who promise to build great football teams and rid the school of its stadium debt in a short period are being dismissed from consideration. There is a happy medium.

The new chancellor could do wonders at Kansas without over-emphasizing athletics. First, the physical education department needs revision both in personnel and courses of study if it is to be recognized in its field. This could be accomplished simply by

the appointment of a head who holds necessary degrees in a reputable school of physical education. Such a man could build the department to required strength for students who elect to follow physical education and coaching as professions.

To give the new coaching staff in intercollegiate athletics a proper start, the athletic board should be revised. Many of the present faculty members have served under the former administration and, in times past, have been reluctant to accept measures the regent investigations have deemed necessary. Some board members, it is said, actually are not interested in athletics. Undoubtedly the faculty has other men capable and interested enough to serve the new deal well.

Kansas seems to have accumulated an efficient and ample staff of varsity coaches but needs a coach for ring sports if the school is to conduct the full program specified in the Big Six constitution. Golf and tennis also have been neglected in recent years and baseball only recently has been revived. Track also is expensive but necessary, and basketball, a topper at Kansas, is not much of a money maker. The entire program looks to football to pay the bills and that goes for the stadium debt, too. And football at Kansas, as many see it, needs only impetus from above -- a go signal from the new chancellor.

Without going haywire and becoming a notorious football mill, Kansas can be made a more attractive place both for the student and the student-athlete. The university has the expanded curriculum, the prestige, the stadium and other facilities, the population area, the interested alumni to operate a successful program of athletics. Properly directed, athletics can become more of an asset to the university, more of a service to the youth and old-timers of Kansas than ever before. The thousands interested in university athletics are following the chancellorship proceedings with much interest and more than a little hope.

March 14, 1939.

Mr. J. K. Kennedy,
Westport Senior High School,
Kansas City, Missouri.

Dear Mr. Kennedy:

Our group of fencers will be glad to come to Westport on Wednesday, March 22nd, and we will probably arrive about 9:30 or 10:00 that morning. We plan to bring one of the women fencers to aid in the demonstration. If you have any suggestions I shall be glad to hear from you.

Sincerely yours,

Instructor in Physical Education,
Varsity Swimming Coach.

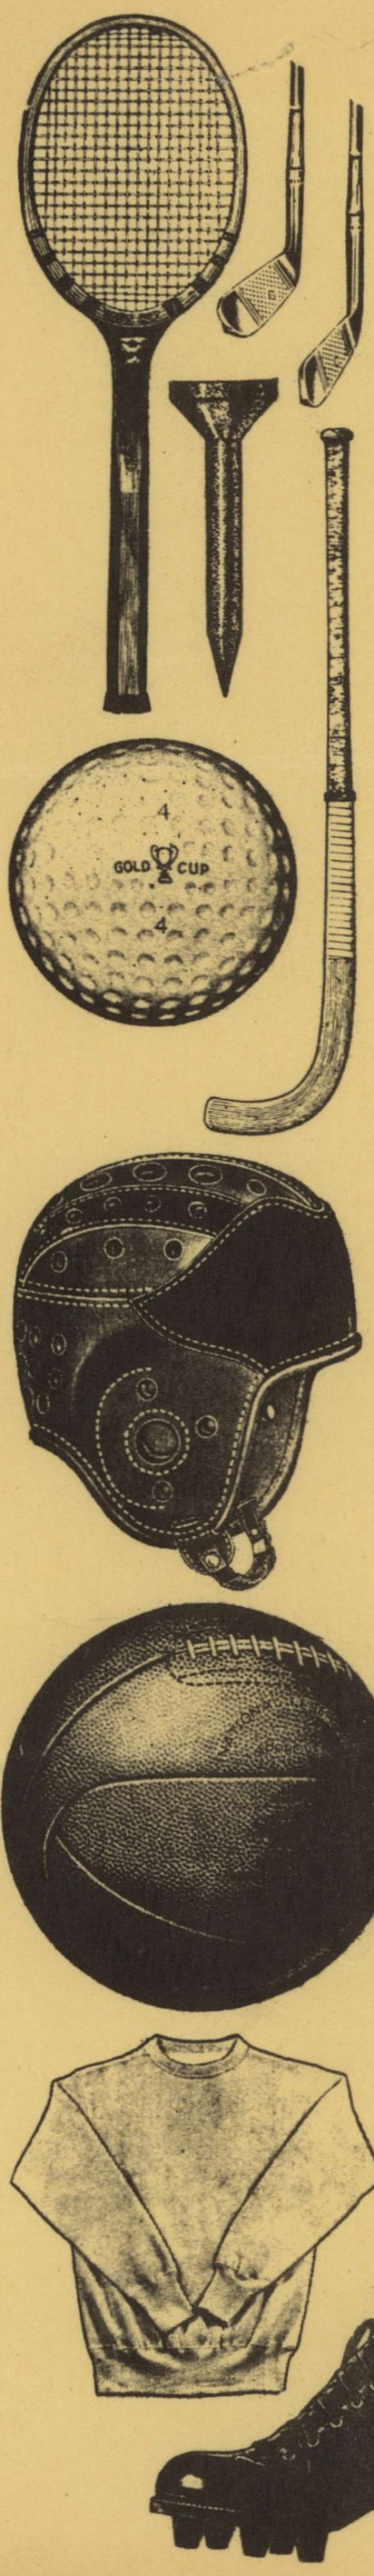

Dear Mr. Rappart,

The Assembly Committee would like to have your group down on March the 22nd. They want about ten minutes for each Assembly.

I would like for you to demonstrate to my Gym classes that same day too. If the date is satisfactory will you let me know. Thanks.

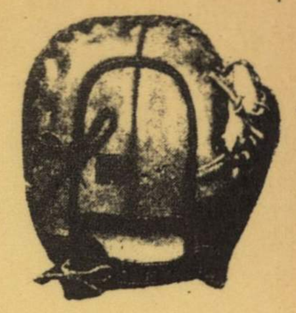

J.F. Kennedy.

Miss Barbara Turner,
Kansas City Sport Goods Co.,
Kansas City, Mo.

Dear Miss Turner:

At the request of Miss Joie Stapleton, a member of our department of Physical Education, I am writing to ask that you send her one dozen rubber suction darts. You, no doubt, are familiar with the kind that she has purchased from your firm before.

Will you kindly send the darts to Miss Stapleton immediately, and send your bill for the same to the Department of Physical Education, University of Kansas?

Sincerely yours,

Secretary to Dr. F. C. Allen,
Director of Physical Education.

April 4, 1939.

57¢

Mr. George King, Storekeeper,
Chemistry Department,
University of Kansas.

Dear Mr. King:

Will you kindly give me an estimate on the cost of a gallon of Oschner's Solution? The formula is as follows:

Boric acid	7 oz.
Glycerine	3 oz.
Alcohol (grain)	27 oz.
Phenol	2 oz.
Aqua (distilled) . . .	89 oz.

Mix the boric acid and glycerine in a paste before adding the phenol, alcohol, and distilled water. The preceding ingredients should make up one gallon of Oschner's Solution.

All I want to know now, however, is the approximate cost to us. I shall appreciate your co-operation.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

KANSAS STATE TEACHERS ASSOCIATION
University of Kansas Unit

October 17, 1938

A meeting of the University of Kansas section of the Kansas State Teachers Association was held at 4:30 in Fraser Chapel with Dean Raymond A. Schwegler presiding. Dean Schwegler announced that due to the pressure of other business the meeting would dispense with the reading of the minutes of the preceding session and proceed to the hearing of the guest speakers. Forty-nine members were present.

Mr. F. L. Pinet, secretary of the Kansas State Teachers Association, was the first speaker and talked on the work of the Kansas State Teachers Association, which was to hold its seventy-fifth annual meeting this year. He divided the work of the Association into the following periods. From 1863 to 1909 the Association strove valiantly and earnestly but was not a large or imposing organization. From 1909 to 1919 the membership grew from 1,000 to 5,000 members but was even then a northeast Kansas association rather than a true Kansas association of teachers. In 1917 an amendment was proposed to hold more than one meeting at a given place, and in 1919 several meetings were held. From 1919 to 1929 the membership grew from 5,000 to 18,000. From 1929 up to the present there has been a gradual drop in the membership due to the depression, but the recent years have found a gradual return to the membership maximum of 18,000 which has at the present again been about reestablished. Mr. Pinet stated that the five-fold work of the Kansas State Teachers Association has been to hold meetings; publish the magazine; establish, organize, and conduct the reading circle; to make a program for improvement of instruction; and to aid with the legislative program of the state. He cited examples to show how this work was carried out. Mr. Pinet stated that the Kansas State Teachers Association had distributed information to stabilize public opinion in favor of the schools, and through its work definite information on finance, buildings, school books, and similar work had been given out. He ended his speech by giving the purpose of the Kansas State Teachers Association, namely, to build a better public interest for the schools, to protect the teachers, and to create a stronger support for the schools of the state. Following his speech, the organization asked Mr. Pinet questions

Mr. C. O. Wright, assistant secretary of the Kansas State Teachers Association, then spoke on the teachers' retirement plan for the state of Kansas. He presented two plans which are up for consideration, namely, the reserve plan or the pay as you go plan. The reserve plan would take five to eight percent of payment while the pay as you go would take only one to two percent. He explained that this whole matter was up for study, discussion, and public interest at the present and that the University membership might be interested in bending its effort toward a general movement in teachers' retirement. Following his discussion, the group participated in a lively period of questions and answers.

It was moved by Dr. U. G. Mitchell and seconded by Dr. F. O. Russell that further meetings of this branch of the Kansas State Teachers Association shall be left to the discretion of the officers. The motion was carried. It was moved by Dr. Mitchell and seconded by Dean P. B. Lawson that the meeting adjourn.

Respectfully submitted,

Ruth E. Litchen
Secretary

April 3, 1939

A meeting of the University of Kansas section of the Kansas State Teachers Association was held at 4:30, Monday, April 3, in Room 119 Fraser with Dean Raymond A. Schwegler presiding. The following members of the Association were present: Dr. Schwegler, Dr. Russell, Mr. Garrison, Dr. Paullin, Mr. Jantzen, and Miss Litchen. The secretary read the minutes of the preceding meeting. It was moved by Dr. Russell and seconded by Mr. Jantzen that the minutes be adopted. The motion was carried. Mr. Garrison moved that the minutes of the October 17 meeting and of the April 3 meeting be mimeographed and sent to the entire University of Kansas membership of the Kansas State Teachers Association. Dr. Paullin seconded the motion, and upon vote the motion was carried. Dean Schwegler then brought up the matter of the election of a delegate to the assembly of the State Teachers Association. Mr. Jantzen nominated Dr. F. O. Russell. The nomination was seconded by Miss Litchen. Mr. Garrison moved that nominations close, and this motion was seconded by Mr. Jantzen. The motion carried. Dr. Paullin then moved that the secretary cast a unanimous ballot for Dr. Russell as delegate. This motion was seconded by Mr. Jantzen and upon vote was carried. Mr. Garrison next moved that Dr. U. G. Mitchell be elected as alternate delegate to the state assembly. Mr. Jantzen seconded the motion. Upon vote Dr. Mitchell was unanimously elected.

Mr. Jantzen moved that the meeting adjourn. This motion was seconded by Dr. Russell. The motion was carried, and adjournment followed.

Respectfully submitted,

Ruth E. Litchen
Secretary

April 17, 1939.

Dr. C. E. Kennedy,
Director of Physical Education,
Kansas City University,
Kansas City, Missouri.

Dear Dr. Kennedy:

I regret that the Big Six Conference called a meeting of its basketball coaches for Saturday morning in Kansas City for the purpose of arranging next year's basketball schedule. It was not definitely decided until Friday, so it was an urgent call.

The meeting was set up for 10 a.m. and I was quite sure that I would return to Lawrence by early afternoon, but other matters came up which delayed our final decision in the schedule making and that prevented my doing so.

I am sorry that I was not able to see you. I returned at 6:30. My daughter told me that you called about 6 o'clock the last time.

I am expecting to get to Kansas City again in the near future and I will make it a point to call you and have a conference with you at your convenience.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

INTERCOLLEGIATE ATHLETICS

June 9, 1939

Dear Coach.....

Glad you liked the review. It was o.k. to make the first paragraph changes. I didn't realize I had left out so much vital first paragraph material. I think I must have been dizzy from cramming so hard lately for my oral examinations. I come up June 14 for a masters degree in history. Got the thesis in and the hours approved. Been working it out the last five summers.

I have only one request to make regarding the review for the guide. I want to see the final type proof of the entire article. It has always been my policy to personally check type or page proofs of everything that goes out under my name. Your stenographer seems to have done a swell job copying but I always like to check the lynotype man and final proof-reader closely. You'd be surprised how many mistakes they make.

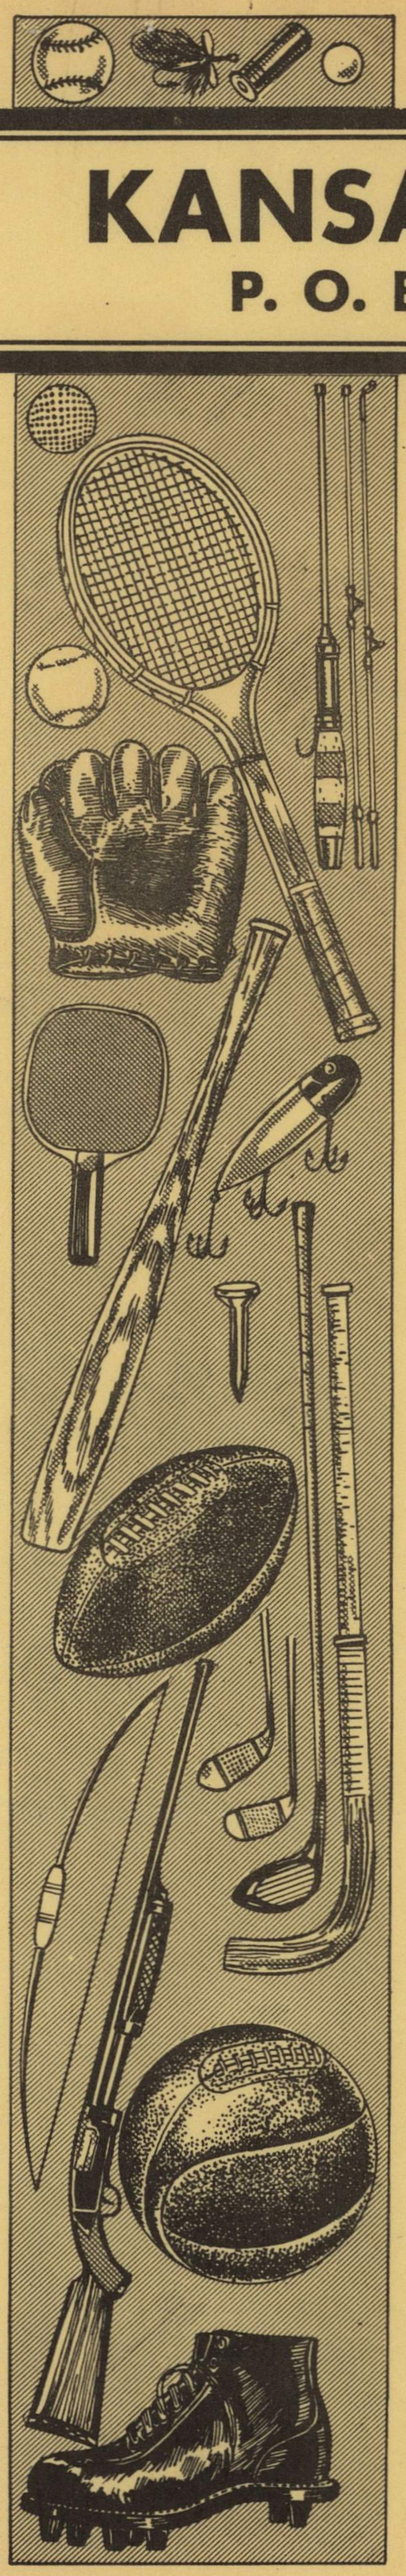

Request sent to John Doyle

My back feels swell. Occasionally at night, if I have worked pretty hard at the office, it gets a little tired and I find that stretching out somewhere seems to help it. I don't have time for golf but I usually run our three-mile section twice or three times a week the year round. The exercise and bath afterward seem to tone me up. I never take a massage after these jogs. Just never got in the habit. I believe the thing that makes my back tired at night is not the running, but rather my rigid upright position while typing. I caught myself doing it just now. I hardly ever take advantage of the back rest of my chair. Always sitting straight up or leaning forward.

It was nice of you to think of Virginia and the kiddies. I shall tell them about it tonight.

Sincerely yours,

Harold Keith.

Dr. Forrest C. Allen
University of Kansas
Lawrence, Kansas

Dear Doctor Allen:

We have your letter of June 30, and one or the other of us certainly must have been imbibing too freely, as I certainly was not in a normal condition if I wrote you that we had some new Drivers and Brassies in steel-shaft models at $1.25. I have been unable to locate a copy of my letter of the 15th, but what I should have said was that we did have some of these at $1.95. We just received an order the first of the week,however, from the Eastern Illinois State Teachers College, Charleston, Ill., for 35 Drivers and 35 Brassies, which has cleaned us out of these temporarily.

We have some very good new steel-shafted Spalding Spoons which we can give you at $1.95 each, and we can give you the Andy Robertson model in new clubs at $2.45 each in any quantity desired of Drivers, Brassies or Spoons. In irons we have a few good hickory-shafted models at from 75¢ to 95¢. We will be glad to make selection of anything you desire subject to approval.

We occasionally get a few used steel-shafted clubs which we sell at $1.25, but they usually go out about as fast as they come in. We might be able to dig up two or three of these for you, and if so will send them subject to your approval.

We enclose our Golf sheet, and if you need any balls recommend some of our Repaint Practice Balls as being exceptional values.

June 30, 1939.

Mr. J. E. Turner,
Kansas City Sport Goods Co.,
Kansas City, Missouri.

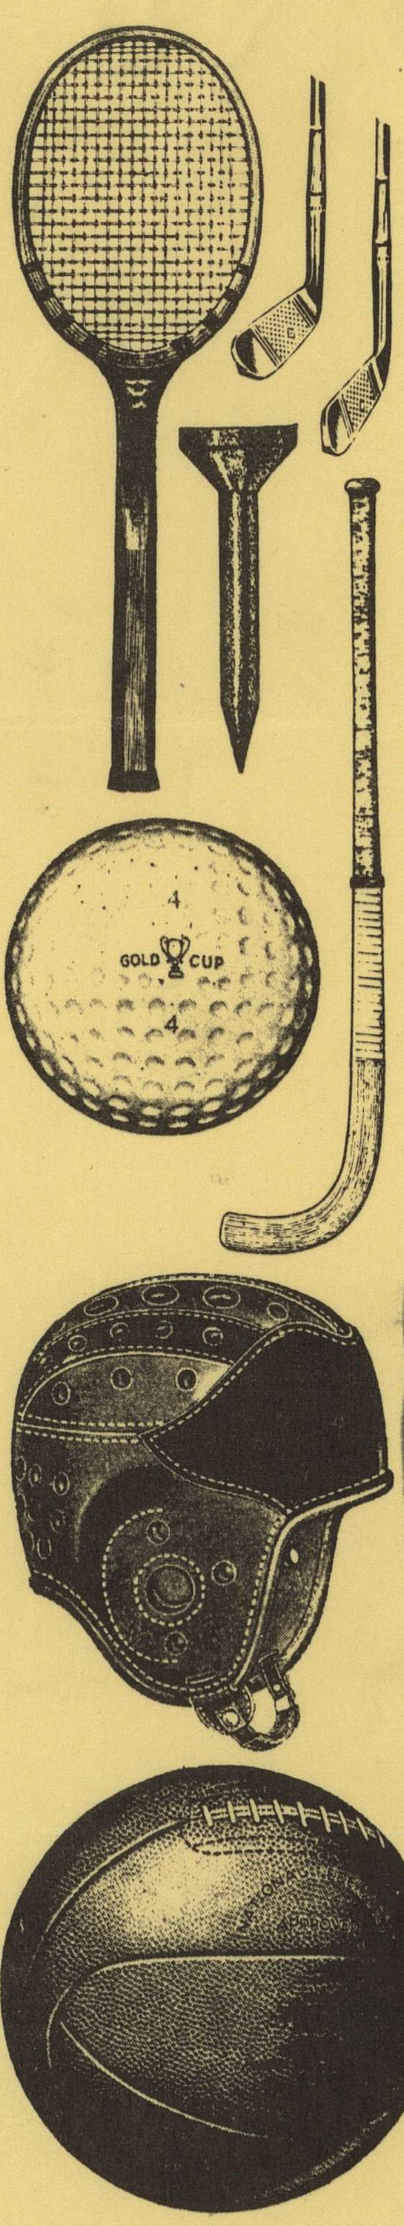

Dear "Cap":

In your letter of June 15 you mentioned that you had some new Drivers and Brassies at $1.25 each in clubs of good quality.

I wonder if you could send us a dozen of these clubs for our inspection. We are desirous of providing a driving range for our Summer Session students, which we hope to open up next week. I would like very much to make a selection of these clubs before purchasing the, and if you could send some for inspection I would appreciate it.

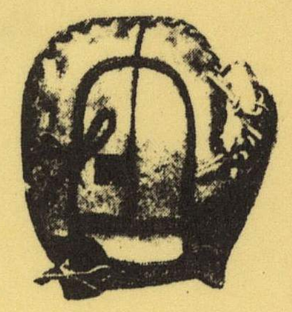

Very sincerely yours,

Director of Summer Recreation.

KANSAS CITY SPORT GOODS CO.

KANSAS CITY, MISSOURI

June 15, 1939

Mrs. Alberta Hulteen
University of Kansas
Lawrence, Kansas

Dear Mrs. Hulteen:

We appreciate your letter of June 14 and will submit bid on the Suction Darts.

We do not handle Croquet Sets but will try to get a price from some of the better dealers here for you on miniature sets.

With reference to the used steel shafted Drivers and Brassies, will advise that we have not been getting in many used clubs this season, and what we have had have not been very choice. However, we can give you some new Drivers and Brassies at $1.25 each, in clubs of good quality.

In irons, the Andy Robertson model at $1.95 is used very extensively by colleges and universities, including such schools as the University of Missouri Kansas State, University of Oklahoma, University of Texas, and similar schools. These come both in men's and women's models.

In the Practice Balls, there has been such a keen demand for Driving Range Balls that it is difficult to secure them in any large quantity. We can supply reasonable amounts of our Standard Practice Balls at 95¢, and of our Second Grade Repaint Balls at $1.25 a dozen. Both of these grades are used very widely for practice purposes, and we will be very glad to send them subject to your inspection and approval. Your business will be appreciated.

SPORTING GOODS EXCLUSIVELY

1508-10 GRAND AVENUE

PHONE GRAND 1911

KANSAS CITY, MO. June 16, 1939

Dr. Forest C. Allen,
Director of Physical Education
Kansas University
Lawrence, Kansas.

Dear Dr. Allen:

Stopped at Smiley's driving tee last night and found he had already sent you quotations on balls.

The buckets are gallon dinner pails and may be purchased from any hardware store for about 25 or 30¢.

The cheap clubs -Doc your friend was wrong about purchasing a second hand driver or brassie in Kansas City. It seems the three driving tees have purchased all odd ones. The only ones I know of that are available immediately are our cheap ones that wholesale at $3.50. These can be furnished in either men's or ladies and both brassies and drivers.

For your 10 tees you will want about 18 buckets to start, at least two bushels of balls and about 10 men's drivers and brassies, and five ladies drivers and brassies - three to one of drivers over brassies - one set of cheap irons 2,4,5,7,8.

Don't forget you will want a wire cage for the boy to wear when picking up balls while the driving tee is in use. This is most essential.

Remember you will need quite a few tees - some cheaper to buy in lots of 10,000 or more.

If there is anything I have forgotten or that I may be of further assistance, be sure to make your wants known on, if possible, it will be a pleasure to assist you in any way possible.

Cooperatively yours,

R. S. ELLIOTT ARMS CO.
