

NORTHEAST JUNIOR HIGH SCHOOL

KANSAS CITY, MISSOURI

April 23, 1938

Dr. Forest Allen Director
Health and Physical Education
Kansas Community
Lawrence, Kansas.

Dear Dr. Allen.

I want to thank you again for so kindly accepting our invitation to speak before our club, the evening of May 2.

We will be very glad to hear you speak on any subject you wish. The subject we discussed I am sure will be very educational as well as interesting to our club.

You asked me to jot down a few high points which you might elaborate upon. I have thought of a few which might be of interest.

1. Intra-scholastic athletics as a definite part of the physical education program.
2. Attempt to stress the idea of having many sports rather than putting so much emphasis upon the major few.
3. Stressing the idea that coaches become educators rather than narrow specialists in one field or sport.
4. If you are familiar the girls competitive program, especially basket ball, I am sure our women directors will be very much interested.

These are just mere suggestions, do not feel duty bound to me to use any of them.
