

March 21, 1938.

Mr. Frank W. Keaney,
R. I. State College Athletic Association,
Kingston, Rhode Island.

Dear Mr. Keaney:

Pardon my failure to acknowledge sooner your good letter of the 28th ultimo. I have been one of those animated cartoons who has been traveling around eating meals that he did not want so as to tell stories I didn't remember to fellows who had already heard them. You know this chicken pie circuit after football and basketball season is especially tough on the coaches.

I think I have been out every night on this gasoline circuit, and I have postponed, temporarily at least, finishing the rating card of players. However, George Edwards wrote and said that he wanted to give me five minutes at the National Basketball Coaches meeting so that I might elucidate on this rating attempt of mine.

So if you will excuse me I will not send it in, first, because I do not have it finished, and second, because it might not prove as interesting in print, and third, because it might not be worth printing. At any rate, I will see you in Chicago, and I trust you will forgive me for not responding sooner to your good letter.

I have enjoyed your interesting bulletin. I believe you read Everett Morris' sport page in the Herald Tribune. He is a good writer.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
