May 13, 1930.

TO THE MEMBERS OF THE JOINT BASKETBALL COMMITTEE.

Gentlemen:-

Below is a copy of a letter being sent to the manufacturers noted on the list attached herewith. If there are any other manufacturers to whom you think this should be sent, will you please let me know? The attached list is the one used by Mr. Tower in sending out a similar letter after the 1929 Meeting.

Gentlemen:-

At the Annual Meeting of the Joint Basketball Committee held on April 12th, 1930, the following resolution was passed:-

That the minimum size and weight of the Basketball shall remain as is; that the maximum size be reduced so there is a variance of one (1) inch; that the maximum weight be reduced so there is a variance of two (2) ounces.

That part of Rule 4, Section 1, would then read:-
It shall not be less than 30 nor more than 31 inches in circumference; it shall weigh not less than 20 nor more than 22 ounces.

The Members of the Joint Basketball Committee feel that the new specifications will result in a better game and in increased interest, and are confident of the full and hearty cooperation of the manufacturers.

Very truly yours,

L. W. St. John,
Chairman.

(signed) Geo. T. Hepbron,
Secretary.

Yours sincerely,

Geo. T. Hepbron Secy.
