

The suggestions offered for your consideration are as follows:

1. Permit no free throws at the time fouls are committed, but accumulate these free throws and have them thrown at the end of each quarter when time is out;
2. When a foul is made by an offensive player - when the ball is in the defensive half of the floor - ball goes to the defensive team as out-of-bounds, rather than permitting free throw, charge personal foul against offending player;
3. When foul is made by defensive player, ball in defensive half of the floor, give offensive player unrestricted pass from spot of foul and charge personal foul against defensive player;
4. Fouls committed when ball is in possession of neither side - give ball out-of-bounds to offended side and charge personal foul against offending player;
5. When defending player fouls opponent in act of shooting and basket is made, charge two personal fouls against offending player but permit no free throws;
6. When defending player fouls opponent in act of shooting and basket is made, charge one personal foul against defending player but allow free throw.

There are numerous other suggestions that can be made, and it is hoped that each member of the committee will take the time to gather a number of suggestions together and send same in before the Christmas holidays, as above requested.

In addition to these suggestions, each member of the committee is to forward the following information with the suggestions; the number of envelopes, questionnaire blanks, and 3 x 5 cards the person expects to use in circularizing his associates in his particular field - namely Amateur Athletic Union, Y. M. C. A., etc. It would appear that the wider circulation which could be secured of this nature and the greater the number of sources from which replies are received, the more valuable will be the report of the committee to the Rules Revision Committee.

In closing, let me say that in case you as an individual do not feel that you have the time to personally attend to this study, will it not be possible for you to assign the task to some one of your immediate associates who will give the matter the time and attention it deserves in order that a report may be made to the Rules Revision Committee which will be a credit to our committee?

Very sincerely yours
