

#3

There was much discussion regarding the elimination of the tip off play at center and the coaches association recommended that various teams actually try out the no tip off rule at center, playing regulation matched games and report back to the coaches association at their meeting this next year. They will then make their recommendation to the Joint Committee.

It is thoroughly understood that the National Basket Ball Coaches Association has not legislative power. It is purely an advisory and cooperative one in its relationship with the Joint Basket Ball Rules Committee.

FORREST C. ALLEN
