This is the fourteenth class to be graduated. We are proud of the general success of more than 400 graduates who are employed by universities, colleges, and high schools, with a representation in almost every state in the Union.

Some of these experienced graduates are available for positions which will be promotions. There are also available several graduates with Master's degrees, who have done fine work for several years as members of the staff of the University department of physical education and are now ready for positions which will give them a wider range of responsibility and opportunity.

Address L. M. Tobin, secretary Placement Bureau, School of Physical Education, Men's New Gym, Champaign, Ill., giving full particulars regarding the position to be filled. Very truly yours,
