

UNIVERSITY OF KANSAS
LAWRENCE

DEPARTMENT OF PHYSICAL EDUCATION

The newly organized Department of Physical Education in the School of Education at the University of Kansas, offering a four-year major course, is now in its second year, and we feel that much progress has been made. We feel that we have been slowly fitting ourselves to meet the needs and demands of the state. Our primal purpose is to serve the high schools of Kansas in this specialized field.

Graduate Work

Graduate work in physical education was begun last fall, and now the following courses have been approved which give graduate credit:

- 100. Principles of Community Recreation, 3 hours
- 176. Tests and Measurements, 3 hours
- 200. Theory and Practice of Athletic Training, 3 hours
- 201. Advanced Basketball, 3 hours
- 202. Administration of Physical Education, 3 hours
- M294. Content and Method of Physical Education, 3 hours
- 300. Special Problems in Physical Education, 2-4 hours
- 312. Seminar in Physical Education, 3 hours.

It is our aim to establish a well-planned program that will lead to a combined Master's degree in Education and Physical Education.

Baccalaureate Degree

Kansas is conspicuous by being one of ten states that does not have state legislation providing for physical education, and one of twenty-five not having a state director of physical education. In our endeavor to train young men and women to fill the teaching and coaching needs of the high schools of Kansas, an undergraduate curriculum for a major in physical education is being followed, leading to the degree of Bachelor of Science in the School of Education. We are enclosing a copy of this course of study, with instructions to students
