1944

Dear Dr. Allen -

It seems like each time I start to write to you there's a picture, and article, of you in our daily E.T.O. paper, "The Stars & Stripes."

I have received two copies of your "Jayhawk Rebounds" and I want to thank you for putting me on your mailing list. Hope you can keep them coming my way.

I'm now stationed at a B-17 field & so far have run into two K.U. graduates. One, Captain Frederick Mann is my Commanding Officer. I think he graduated in 1931. Before the war he was a lawyer with the Kans. Power & Light Co. in Topeka. He was born and raised in Jefferson County, not far from my home. The other Kansan is Dick Webb. You'll probably remember him - he belonged to the A.T.D. fraternity & graduated in 1942. If I remember correctly he was in one of your B.B. Classes at the same time I was. Dick is a Navigator on a "Fort" & I do plenty of "sweating" when he's on a mission. His first mission was one of the early - big daylight

. That's starting your tour the hard way. I let him read my "Jayhawk Rebounds" & he enjoys them alot too. I sure wish my eyes hadn't played-out when I was in the Cadets. I might have been in the same crew
