

Dick "Skip" Williams, the son of Mr. and Mrs. Dick Williams, has arrived home from Germany. It was he who liberated Walter "Buddy" Herriman from the German prison camp, and he is now enjoying the home cooking at his parents' home on Crescent Road. Buddy Herriman is also in Lawrence, and I am sure that Buddy will never fail to be grateful to his fellow-townsmen, Skip. There is another interesting sidelight. Years ago Buddy's mother worked as secretary for Dick Williams at the Watkins Bank. Mrs. Webster is now one of the secretaries in Chancellor Malott's office.

Buddy's sister, Lt. Evelyn Herriman, is back in the states after spending 18 months in the Pacific as a Physiotherapist with the 44th General Hospital. Right here I might mention other young women who were majors in our Department of Physical Education who have entered the service. Marge Rader is also a P.T. and at present is at the ASF Replacement Depot, Camp Beale, Calif. Margaret Van Cleave, a graduate in 1939 (now Mrs. C. E. Standish, Jr.) was a member of the WASP group at Sweetwater, Texas, but since they have disbanded we understand she is still a member of the Army Air Corps. Ruth Baker, Sl/c Sp(S) is enjoying her work with the WAVES at the Naval Air Station, Pensacola, Florida.

We have received a note from Lt. Curvin Greene, also at the N.A.S., Pensacola, Fla., in which he says, "I lunched with an old K.U. man, Frank Bangs, who is under instruction here in the Advanced Aviation Gunnery Officers School. Perhaps you will remember him better as the Phi Delt representative at Carls." Curvin and John Halberg, the 6 ft. 8 in. midgot from Kansas City, were on our freshman basketball team in 1939, and to us it seemed as if they were Mutt and Jeff.

From Lt. Comdr. W. H. Shannon, N.S.C.S., Boston, Mass.: "I was greatly concerned over the report of Howard Engleman. I certainly trust that his recovery is speedy and permanent. Well do I remember Howard as a student, a basketball player, and most of all a real gentleman. . . . I see Milton Allen every day. It is pretty warm for study now, but I do believe the boys are able to gain considerable personal benefit from the course. . . . I have played a couple of rounds of golf, the Winchester course (McSpaden was pro back here at one time) - it is an excellent course. I also play softball a couple of evenings a week, and am still able to get around with the boys."

Commander Bill, you are a great guy and a real friend of youth. We will be pulling for your return to Mt. Oread.

From C/M M.R. Arrowsmith, "Rex", at King's Point, New York: "I am now going to school at King's Point, the United States Merchant Marine Academy. This is really a swell place. Not much has been heard about King's Point yet as it is the newest of the academies. The athletic schedule here is really something. We play all of the big Eastern schools, including Army and Navy. . . . I don't believe there are any other K.U. men here. However, most of us are college men."

Ens. Ralph Schaake, big, fine and handsome, dropped in the office to say hello. He has matured, has a world of confidence, and when this war is over he will make a great coach and director of physical education. He wants to go on and get his master's degree and then eventually his Ph.D. I predict a splendid future for this very durable citizen of German ancestry.

Ens. Joe S. Brown called me from Washington, Kansas, his home, to tell how much he enjoyed the Jayhawk Rebounds. Then he stopped in the office on June 21. He is now detached from the USS Card, after hunting submarines in the Atlantic, and is now on his way to N.A.A.S., San Clemente Island, Calif., for duty involving flying. I was in my class teaching Kinesiology and as he opened the door I invited
