Labor will fight for a higher wage rate. Industry will ask for higher ceiling prices, but government will hold them off for a while.

But why should I endeavor to describe to you something that may not exist at all? Ed Howe, the deceased sage of Potato Hill, said, "I spent most of my life worrying about things, 90% of which never happened." But when we on the sidelines think of Bretton Woods, Dumbarton Oak, and San Francisco, these names mean so much to us that we pall at the work whead. Certainly there will be plenty of things for you boys to do, things that you will want to do, things that you have a right to do. So, when you come back to old Mt. Oread, go to the west door of Robinson Gymnasium, walk straight south to the end of the hall, and turn into the office for a great big welcome which awaits you. Gosh, it will be swell to have you back.

Most sincerely yours,

But, the home front is not all rosy. The peace, for which we are all so thankful for, came so suddenly that it disjointed business in its kaleidescepts change. It is predicted that eight million non will be out of work by the time snew files. But, the phychology of business, by this time, is firm and optomistie. Your Commender in Chief is deing a great job in dropping many controls and clearing the track in a splendid reconversion program. In the next month, we will have millions back for work, so you boys who are still in the cervice, den't race your meters. I know how you feel, maturally you will say, "kno are these guys to give us this kind of advice!"

Many you do get back and take advantage of the educational angle of the G. I. Bill of Rights, you doubtless will have the "best yo" so far as the benefits to the servicement are concerned. That much talked of two thousand dollar loss is largely a myth. It sounded good, but practically, you can't berrow two thousand dollars from any bank, or anybody else, unless your individual credit is good for two thousand dollars. Your service record may be good for some things, but these benieves well pay off.

The authorities and that we will have a depression, but the salitor much as passimistical angular decision of the 1830-33 depression; not as had or as passimistic to but it will be plonty tough on people with it lasts. Her orders were cancelled as out it will be plonty tough on your slosed that naturally millions of people are out of work. About nine menths from new the authorities think that we will be on the bigger bigger to prosperity will come bigger than for at loast five years.

Howunitke the period following the last World War. The boys came back, that were out of jobs, prices were high, and they had to pay twice as much for a sult of clothes as when they entered the sorvice, and there were no jobs to be had. This time it has get to be different,
