

February 22, 1941

Mr. Frank L. Myers
Dept. of Physical Education
Kansas State College
Manhattan, Kansas

Dear Frank:

Since your name is Frank I want to be more than frank. My secretary is in near tears over the word that she coined for me. She thought we were such bitter rivals that her new word was a take-off from enmity. So you see, Frank, when we throw these hand grenades at each other even our secretaries think there is war between us.

What I dictated to her was anaesthetized, but I perhaps had a piece of horehound in my mouth and unlike Demosthenes I could not cover my defects in articulation. Anyhow, Frank, Webster's Best could not have produced "enmitize." But isn't that just like a man to lay it on to his secretary?

Thanks, Frank, for changing the dates to April 7 and 8.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach
