of the year in whipping a very good Ft. Leavenworth Flyer team. Eight Hundred people were out at the hall ten minutes before game time unable to get in because the auditorium was packed. We admitted them and let them stand around the end lines and sidelines until the entire big floor was packed and jemmed with humanity. I have never seen so many people crowded in such a space, but both teams were fine sportsmen and dived into the crowd time after time without hurting anybody.

We may be on our way. At least we are going to promise Missouri and Iowa State each a real hactle when they come here on February 26 and March 3, respectively. I may be wring -- I have been many times -- but I am predicting better days toward the end of our season.

With my very best wishes to everyone of you - health, happiness, and a safe return - I am

Very cordially yours,
