

Sunday in Leavenworth I have been doing some traveling. From Ft. Leavenworth I went back to Texas for about two weeks - then to Camp Davis, N. C., for 6 weeks. Then to Orlando, Fla., for 10 days, and then to Camp Edwards, where I arrived July 4. . . . We sleep under blankets every night. . . . Most of the Kansas men that I have met have been from Kansas State. But we're all on the same side in this game."

Pvt. David L. Shirk,
52nd Bn., Co. C, 4th Plat.,
Camp Wolters, Texas.

Dave says, "I want to thank you for your Rebounder. I have been wondering just what some of the fellows have been doing ever since this mess

started."

Pvt. Hoyt Baker,
140th Bn., B Battery,
AAA Gun Bn. (MBL),
Camp Edwards, Mass.

Hoyt says, "I run into a captain (James K. Hitt) who was registrar at school last year before he resigned. He was the fellow who was with Capt. Smith that Sunday afternoon you

took us to Leavenworth. I had quite a talk with him yesterday morning. . . . Thanks again for the good news letter. I read it over almost every day."

A/S John Dewell, V-12, USNR
132 S. Columbia,
Chapel Hill, N. C.

Johnny Dewell is a brother of Billy Dewell, the all-American end at S.M.U. and all-American forward in basketball at the same place. Johnny spent one

semester here his freshman year last fall. He says, "The school here is very nice and I like the Navy very much. My only regret is that I couldn't have been sent to K.U." Johnny was one of our star fullbacks on the football team and a star guard on the frosh basketball squad.

A/S Jesse Paul Turner,
V-12 Unit, USNR,
Room 218 Talcott Hall,
Oberlin College,
Oberlin, Ohio.

Paul writes: "I received the Jayhawk Rebounds yesterday. I might say I sure appreciated it. It built up my morale a little, don't you know. It makes a fellow feel pretty good when he knows what the other fellows are

doing right along. As for study, I am doing more than I ever thought that Paul Turner would do in his life. Everyone in the program is taking 19 hours . . . Physics is the only subject that is bothering me so far. . . . Tell everyone in the P. E. department hello for me, and any of my other friends that still are there." Well, Paul, there aren't many fellows left, except of course, as you know, Henry Shenk, Reg Strait and Dean Nesmith.

Pfc. Don E. Blair,
Co. B, 3202, S.C.S.U.,
A.S.T.U. New York University,
Bronx 53, New York.

Don, in his letter of July 19, presumes that we will be surprised at his new address. He went from Virginia Polytechnic Institute to New York University. He says, "I was accepted

for an engineering program and was sent to New York University to attend engineering school. . . . Bill Brill is in Mississippi in the air corps now. His address is - Pvt. W. W. Brill, Sq 601, Class 70, Bks. 6, 60th Training Group, Keesler Field, Miss."

- - - -

We have four new men in the department that we want to acquaint you boys with. They are: Howard Porter, a Missouri graduate, who was at Argentine High School and a teaching associat of Eddie Ash: Vernon Hayes,
