

You remember I told you Coach Henry Shenk will start football practice on July 12. Well, here is the schedule as it is now arranged: September 25, open; October 1, Denver University, at Denver; October 9, Iowa State at Lawrence; October 16, Washington U., at St. Louis; October 23, Nebraska at Lincoln; October 30, Kansas State at Lawrence; November 6, Oklahoma at Norman; November 13 open; November 20, Missouri at Lawrence. Some of these Army outfits are going to be tough for the age of our boys, and I am hoping Henry can start out with a few wins. Prospects look pretty good, but there are no large fellows. I have picked one or two boys from my physical conditioning classes that will help him somewhat, but as I see it the size will be lacking. I noticed the Oklahoma coach, "Snorter" Luster, has a hundred out but he complains about lack of size. You can't get them on the hoof like you could in pre-war days - they don't come so big. It is my opinion that Iowa State and Missouri will be the toughest, but we are hoping that Henry has enough material and good enough luck to upset the balance of power. Henry has not picked his assistant coach yet, but it may come from one of our P.E. men.

Ernie and Mary Vanek just came by the office today at noon. Ernie was over to take his physical examination from Dr. W. B. Key, Lt. Comdr. and medical officer for the Naval Training School here. Ernie will be stationed at Chapel Hill, N. C., for thirty days. He should be leaving pretty soon. His address now is in care of the Topeka High School, Topeka, Kansas.

Note: Later address from Howard Engleman -

Ens. H. G. Engleman, USNR
1055 Euclid Ave.,
Miami Beach, Florida.

Howard says, "Just a card to give you my temporary address for a couple of months. I am now at sub-chaser school. . . . I ran into Bill Hogben

in Frisco. It sure feels good to see one of the old gang."

Flash . . . Congratulations to Editor Chief Specialist Freddy Harris on his nifty Richmond Air Station publication!

Oh, yes, one other note -- Hallie Harris still comes by with his foul jokes! Mr. Shick, the campus patrolman, is still very much on the job and interested in hearing from all of you boys. . . . And Professor W. W. Davis can still cuss through his teeth when he thinks of some of the Big Six opponents, Benito, Adolph and Hirohito. . . . Dean J. Jay Jakosky, of the Engineering School, is leaving us August 1. This is an irreparable loss. He is a grand fellow and most popular with everyone here.

- * - * -

You will notice that I have not hooked up the names with vital combat areas for many of our boys, and of course I will not do this because it might give information or aid to the enemy. At the present time, however, T.P. Hunter, Don Ebling, Fen Durand, Bill Jones, Ole Nesmith, Johnny Burge, and perhaps many of the other boys are in mortal combat areas.

The best of luck, boys. I know that you will keep Old Glory and the old Jayhawk flying.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
