

May 3, 1943.

Mr. Lacy Haynes,
Kansas City Star Bureau,
Kansas City, Kansas.

Dear Lacy:

Don't read all this dope, but I wanted you to see what we are doing for our Kansas athletes in the service. Many of these boys write us letters, and not being able to reply to all of them we get out a mimeographed letter with the addresses of each boy so that the other fellows can keep in touch with those they have for the moment lost contact with.

I have sent one to the "Admiral" at the George Washington Inn. I thought he would like to keep up with his old pals of former years.

Some time at the first opportunity I am going to drop in and have a visit with you. And you know I promised you that I would look after that post-flu difficulty of yours.

I was going to write you a special letter to thank you for your extreme kindness in taking care of Eleanor's announcement. Mrs. Allen and I deeply appreciate the same and I apologize for being tardy because it was a wonderful service that you did for us. You know these women just have to take care of those details when it comes to a wedding. And how you did it! You have been mighty friendly to the Allen family and we greatly appreciate it.

I was glad to see by Saturday morning's paper that William Allen White and the Mrs. were able to leave the hospital.

Give Mrs. Haynes and Mary Jane our warmest regards.

Cordially yours,

Director of Physical Education,
Varsity Basketball Coach.
