

August 7, 1946

Mr. J. W. Jones, President  
State Teachers College  
Maryville, Missouri

Dear Mr. Jones:

In answer to your letter of August 6 I am listing the names of two young ladies who are very high type persons, as well as being well trained in physical education. They are both employed and it may be difficult for them to get released at this late date from their high school jobs. I would recommend either one of the two.

Katherine Schaake graduated from the University of Kansas three years ago. She taught in a high school at Grand Island, Nebraska, one year and for the past two years has been the girls' physical education instructor at the Hutchinson High School, one of the larger and better high schools of the state. Katherine has a very pleasing personality and she is very well trained professionally and served one summer on the staff here at the university. Her address is 1816 Alabama, Lawrence, Kansas, and her telephone number is 3142J. I have talked to Miss Schaake and she tells me that she is interested in going ahead and getting her master's so that if you should hire her it would only be a few summers until she would have her master's degree.

Mildred J. Wells will teach at Topeka High School next year. She has been for the past two years at Emporia High School and made an outstanding record there.

I am having Mr. H. E. Chandler, who is in charge of the Teachers Employment Bureau here at the university, send you further information about these two girls. I am sure that either would be excellent. It is just a question of whether or not they could get released this late in the summer from their high schools. I certainly hope that you can get one or the other of these two girls as I am sure you will be pleased with them.

Very sincerely yours,

Henry A. Shenk  
Chairman of the  
Department of Physical Education
