Dear Phog:

Enclosed is a little squib from the Topeka State Journal for Saturday, March 7th. You very probably have seen it and will recall that the remarks referred to were not made by me but by Bill Miller. I am enclosing a copy of the remarks which I had prepared prior to the ceremony last Friday night. I cannot recall of ever having been so nervous over having a part in a public program before and I am ashamed to say that I did a little stuttering over what I had to say. I have never made a speech in which I was so anxious to say the right thing and felt so keenly what I was saying. Therefore, I hope you will excuse what may well have appeared to have been mike fright. While the whole ceremony was entirely for your honor, I at the same time felt that it was one of the greatest honors to have come to me to have a part in it.

With all good wishes, I am

Very truly yours,

BALFOUR S. JEFFREY.
