

June 13, 1942.

Dean J. J. Jakosky,
School of Engineering,
University of Kansas.

Dear Dean Jakosky:

I am sending you a folder on my Goal-Hi. This started out as a small thing, but has grown into quite goodly proportions. As I told you, I got a call from the president of the Medart Manufacturing Company, telling me they are going to freeze all this sort of stuff.

I certainly am interested in your golf gadget.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.
