

THE UNIVERSITY OF WISCONSIN  
DIVISION OF INTERCOLLEGIATE ATHLETICS  
GYMNASIUM  
MADISON

OFFICE OF THE DIRECTOR

July 11, 1941

Mr. Forrest C. Allen  
Director of Physical Education  
University of Kansas  
Lawrence, Kansas

Dear Mr. Allen:

Thanks for your recent letter. I too was disappointed not to see you in Lawrence but appreciate the fact that you had to be away. I also appreciate the good word you passed on to Gwin Henry, which helped make it possible for the Wisconsin Track Team to take a grand trip.

I was also sorry not to see my old neighbor Waldemar Geltch. I had planned to see him on Sunday but due to the death of Mrs. Jones' mother, I had to leave immediately after the Relays on Saturday, and didn't get back until the day of our dual meet. I've had a letter from Mr. Geltch since I returned and have also written him.

I'm not teaching this summer and plan to go up on the north shore of Lake Superior for a short time with my family.

Guy Lowman's recovery is very slow through he is improving. He comes down to the office two or three times a week to take care of administrative work but does no teaching.

Under separate cover I am sending you a bulletin of the Education Courses and some mimeographed material on the Physical Education program. We're not offering anything new. My personal feeling is that most of our institutions <sup>offering</sup> theory courses are going to seed as far as this part of physical education is concerned, and they should get back to fundamentals and exercise.

With kindest regards, I am

Sincerely,

T. E. Jones
