Dear Bob:

I want to finish up a job I have not completed.

I want you to understand that when you told me that you were not in class and T.P. Hunter did not tell you about the time of leaving for Kansas City, I said to you, "Then you were not in class to hear the announcements?" And you said, "No sir."

In reviewing the case with T.P. Hunter he stated that you were in class.

You also stated to people that I would not speak to you. Bob, quit passing the buck and get down to earth. I have always spoken to you. It is the fact that you have passed the buck, as you did in this Hunter case, that gets you into difficulty.

Very cordially yours,

Director of Physical Education and Recreation  
Varsity Basketball Coach
