

He is also very good in voice. The Nebraska U. Musical dept. has made advances which would help greatly but he must have all he can get because on acct of ~~residence~~ and accidents in my family I am unable to help much.

I have thought how badly I feel when you told me of your loss of a Son but it was several years later before I actually understood to fullest extent.

My Boy 10 years old was burned by an explosion, so badly that he died and nothing can ever overcome that grief.

Now Boy if you need material for foot ball and also a very High Tenor in music please let me know what prospects there is there for him.

With best wishes and highest regards I await your reply.
