

January 16, 1939.

Mr. Balfour Jeffrey,
National Bank of Topeka Building,
Topeka, Kansas.

Dear Bal:

I am wondering if you have been able yet to do anything about the speaking date at the Topeka High School.

There was a method in my madness in asking this, and I am very sure I can put it over. I know that I can sell myself in a physical education way, without trying to boost our program here at the University.

Don't go to any extreme measures about it, Bal, it isn't that important. I am speaking at high schools all over the state, and I felt we could derive some benefit by appearing at the Topeka High School. However, I would not want to embarrass anyone.

It was good to see you at the Aggie embroglio.

With all good wishes, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Lawrence, Kansas.

Dear Doc:

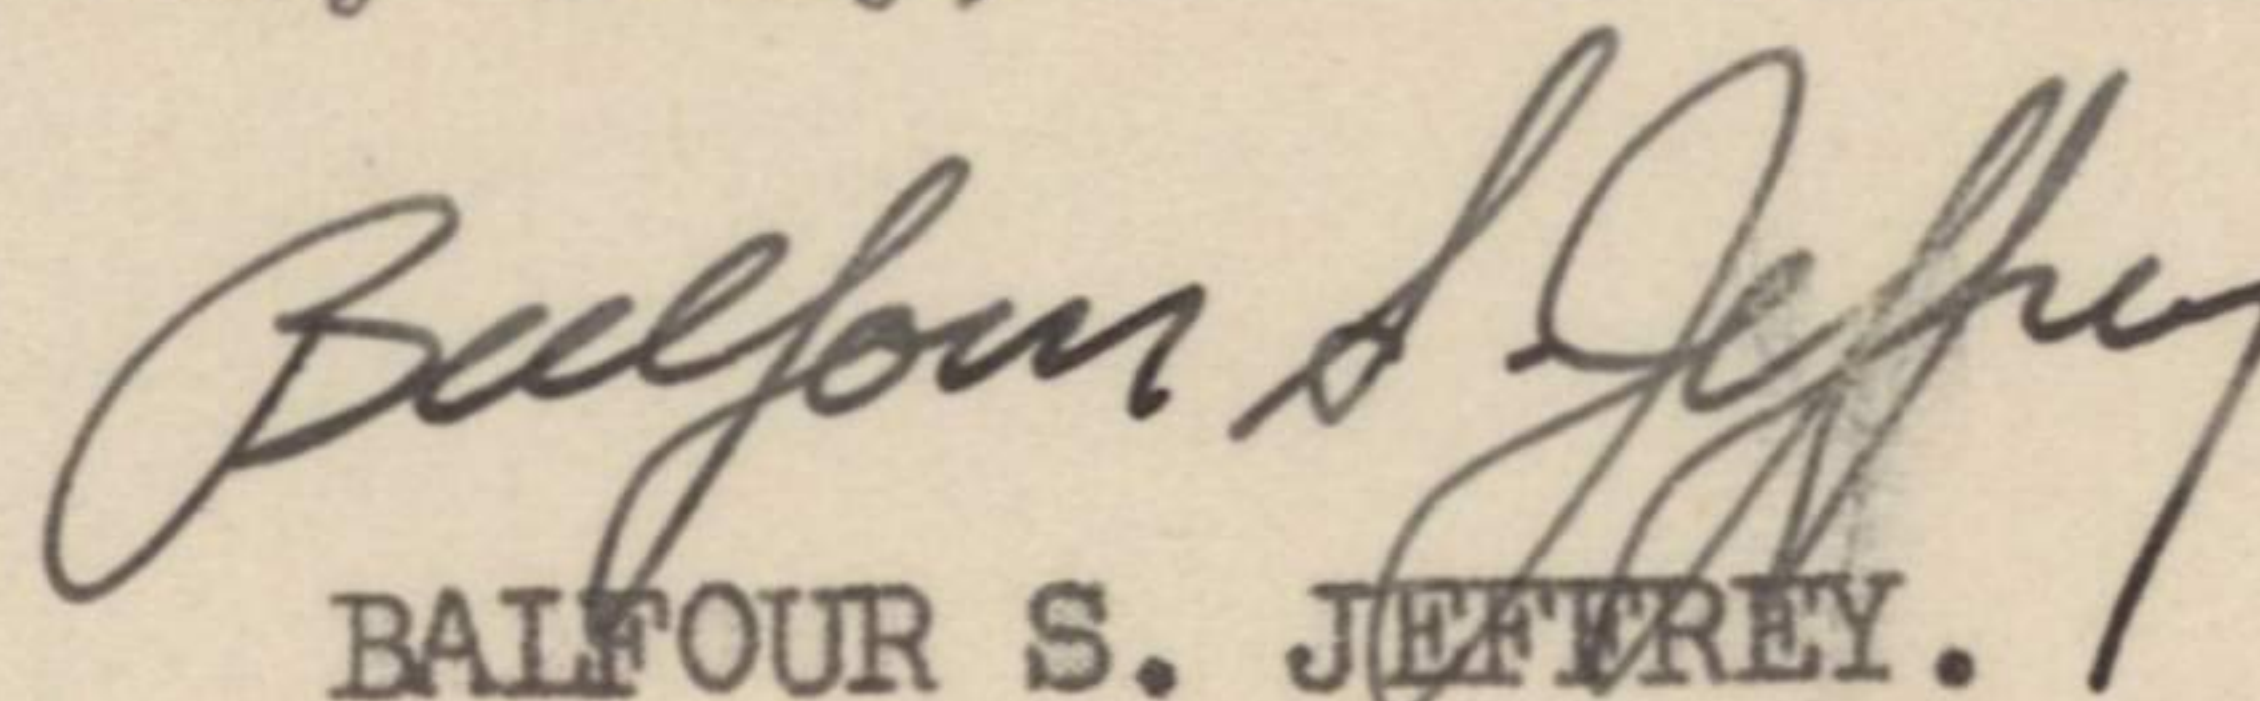

I have your letter of November 17th, but have not had an opportunity to see what can be done. I shall do so very shortly and will let you hear from me.

It was nice to have a letter from you. I am still hoping that we can have a good visit soon. I have been in Lawrence but a few times in the past year and then only for some specific purpose, and this did not give me much time for anything else.

I know you will have a successful basketball season, and you know that I will be, as ever, one of your strongest supporters.

I will let you hear from me soon.

Yours very truly,

BALFOUR S. JEFFREY.

BSJ/rb

November 17, 1938.

Mr. Balfour Jeffrey,
Attorney at Law,
National Bank Building,
Topeka, Kansas.

Dear Bal:

I am still promising myself that I am going to run over there and have that visit with you in Topeka. It seems a travesty that when we are so close to each other that we do not get together more often, but with basketball season coming on doubtless we will see more of each other.

I am sending you a schedule of our games so that you can have the dates lined up in good shape. The varsity will play the freshmen on November 29 so that our patrons will get acquainted with our varsity and our freshman groups. You may not want to come down for that one, although I would be happy if you could. We have some fairly good freshman material, but it will not compare with last year's freshman squad.

Last spring when it was rather late for the school year, I wrote Chester Woodward asking him if he could discreetly arrange for some time for me to speak to the Topeka High School assembly. Chet wrote back that it was so late in the year and they had had so many assemblies that he could not very well arrange it, but would do so this year.

With our new set up in Physical Education I find it quite expedient for me, as head of the new four-year major course, to get out over the state and make appearances before these high school assemblies. Of course we never mention in the high school assemblies anything about this new set up here, but I do find that by getting out and getting acquainted with principals and superintendents it is a help to our enrollment. For that reason, Bal, I am wondering if you could rather discreetly contact Chester Woodward or Principal Van Slyek, or the powers that be there, and arrange some morning this winter when I might be invited to speak.

Last spring I spoke at Wichita East, Newton, Salina, Russell and a lot of towns out in that part of the country. This year I am desiring to cover the ones closer, because I do not miss so much time away from school. My morning class hours for this semester are as follows: Monday, Wednesday and Friday, 11:30 to 12:30; Tuesday and Thursday, 9:30 to 10:30.

Bal, if you can arrange this set up for me without being obvious that I am asking for it, I would appreciate it. I am not afraid of my ability to sell the high school students on the subject that I might burden them with during the part of that morning hour. I will appreciate your kind cooperation.

With all good wishes, I am, as ever,

Most sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

January 26, 1939.

Professor C. O. Jackson,
Department of Physical Education,
University of Illinois,
Urbana, Illinois.

Dear Professor Jackson:

We are very glad to respond to your letter of the 19th instant regarding information on the course "Tests and Measurements in Physical Education".

Our undergraduate course in Tests and Measurements is a two hour course, open to juniors who have had as a prerequisite our course No. 36-History and Principles of Physical Education. The course is taught by Dr. V. W. Lapp, who has the following to say in answer to some of your questions:-

"The first half of the semester is devoted to the learning and appreciation of the statistical techniques involved in the understanding of the T score scales used in our field. These involve the tabulation of material, the computing of the mean, median and standard deviation; some understanding of the normal curve; and the actual technique of computing T score scales. The remaining half of the semester is spent in analyzing various tests in the field and in actual practice in the techniques of doing and administering the more common tests.

"The textbook used in the course was Bovard and Cozen's new revised text. However, I did not find it extremely useful because if one wishes to use the test described he must look elsewhere for the techniques of administering it and the scales necessary for interpreting the tests. The Cozen's Achievement Scales for the various grades, recently published from California by A. S. Barnes and Company, have been used as supplementary material; also F. R. Rogers' books, David K. Brace's book on Measuring Motor Ability, and some of McCloy's published material. In addition to these, I have used some private tests with standards devised by myself, of which I have only one copy."

I am enclosing a marked copy of our curriculum for majors in Physical Education, showing the catalog description of the course in Tests and Measurements for undergraduates. You will also notice that we have in addition a more advanced course, No. 176, which gives graduate credit. I thought this might be of interest to you.

If there is any further information we can give you it will be a pleasure to respond.

Yes, indeed, we should be very glad to receive a complimentary copy of your "Practical Bibliography of Recreational Activities". I am sure it will be of value to our staff.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

UNIVERSITY OF ILLINOIS
SCHOOL OF PHYSICAL EDUCATION
URBANA

January 19, 1939

Professor F. C. Allen
Chairman of Department of Physical Education
University of Kansas
Lawrence, Kansas

Dear Sir:

We are planning to introduce a new undergraduate course in "Tests and Measurements in Physical Education" as an elective for juniors and seniors beginning a year from February. I have been asked to secure pertinent data which might guide us in the formulation of such a course.

Your school has been recommended as having one of the better courses in this field, and I am writing at this time to ask for your help and cooperation. In view of the experience you have had with this course, will you please answer the following questions:

What are the prerequisites?

Is it elective or required?

2 How many credit hours?

What text book or books are used? *Boward + Cozens J. D.*

What collateral reading is used? *Achievement Scales of*

none What problem manual is required? *W. L. Ed (Cozens)*

What approach is used? (Statistical, historical,

$\frac{1}{4}$ study and evaluation of tests, application,

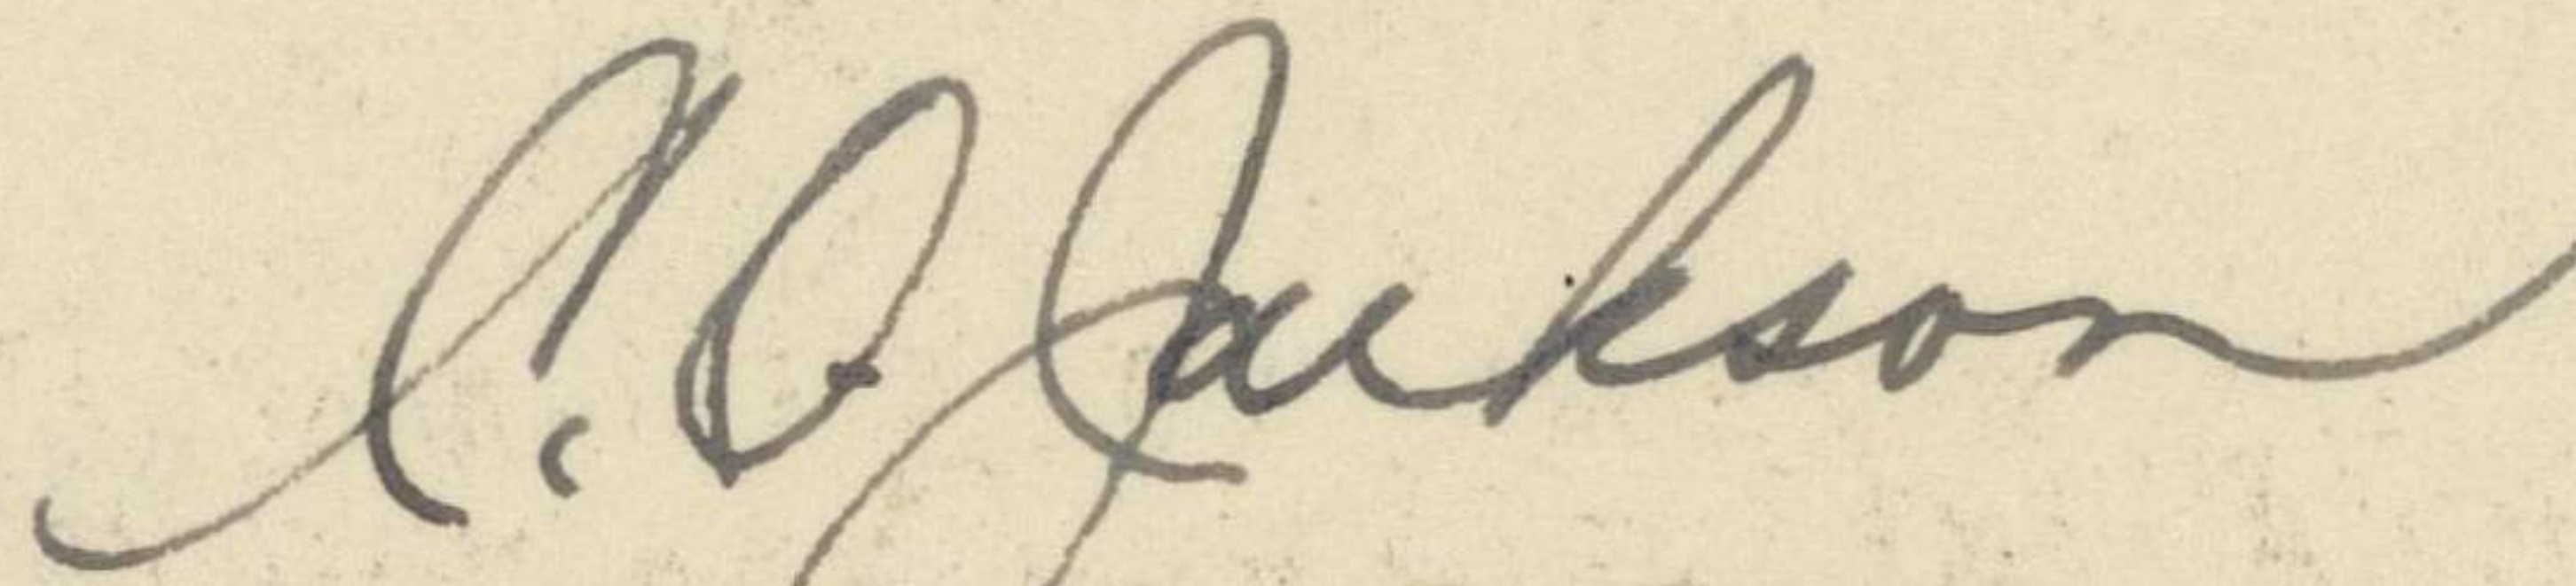

$\frac{1}{4}$ laboratory practice, research, etc.) *212*

What percentage of class time is devoted to each? *100%*

If you would care to forward any additional material which will help make your answers more complete, I will be only too glad to reimburse you for it, or return it as the case may be.

Thank you for your cooperation.

Sincerely,

C. O. Jackson
Assistant Professor

J:J

P.S. May I send you a complimentary copy of my "Practical Bibliography of Recreational Activities" just published by the Curriculum Library here?

C. O. J.

Dr. F. C. Allen, Basketball Coach
University of Kansas
Lawrence, Kansas

Dear Coach:--

If your stay in Lincoln permits, I would like to arrange for an interview with you. I could interview you in the afternoon at your own convenience and record the program. Then the recorded interview would be played that night on my regular sport reviews.

I will check with the hotels early Saturday to see where the Kansas team is staying, and we can discuss the matter at that time.

Your cooperation in the past has been greatly appreciated.

With best wishes for a successful season, I remain

Sincerely yours,

Harry Johnson
Harry Johnson,
Sports Announcer

February 10, 1939.

Mr. J. M. Justice,
Paola, Kansas.

Dear Mr. Justice:

I am leaving for Topeka this afternoon where we play Washburn College tonight, but I thought I should get some word to you in regard to the old gym equipment that might be available for your son.

I am sure that we have parts of some old parallel bars stored away at the stadium, and I asked one of our helpers to see what was there. I haven't been able to get a satisfactory reply, so I am going to have to investigate myself. I have been so rushed with coaching and administrative duties in the past few days that it has been impossible for me to put on some old clothes and go down there to see what I can find. However, I expect to do that before long.

I hope that your son is getting along satisfactorily. I shall try to send you word before long in regard to what sort of cast-off equipment we are able to locate.

Very sincerely yours,

FCA:AH

Director of Physical Education,

PREFACE

The books, pamphlets, and materials included in this bibliography represent a number of the better publications dealing with recreational activities. In many cases, the bibliographical references have been read and evaluated personally; where this was not possible, reliable book reviews and recommendations of competent persons have been helpful. Before the final compilation, each section was submitted to one or more specialists for deletions and additions. Throughout, an attempt was made to keep the list brief and practical.
