Dear Sir:

I am coaching a group of promising basketball players and feel the need of more knowledge in this line. I have had ten years of playing experience, but I wish to know more of the science of the game, and of coaching a team.

Last year I had the same team in the Marmion Church League and finished in fifth place in the Salt Lake District.

Would you please recommend some books on this subject?

Enclosed you will find a self-addressed envelope. Thanking you in advance.

Yours truly,
