

October 7, 1937.

Mr. Herbert L. Johnston,
Department of Athletics,
University of Arkansas,
Fayetteville, Arkansas.

Dear Herbert:

I was very pleased to hear from you and happy indeed to know that you are in such a congenial group. I quite agree with you that the group of Arkansas coaches are great fellows. Give them my kindest regards.

To make sure, I checked up with our medical adviser, Dr. A. J. Anderson, and he suggests that two grains three times a day of calcium sulphide be given to each one of the boys who are troubled. In addition to that, he gives the shots twice a week. Of course, that is the serum for boils.

I think it rather advisable if you will, of course, consult your medical physician on this as he would feel much better, and the relationship between trainer and physician is always best when all confidences are discussed. I know, of course, that you will do this.

Give my kindest regards to Tommy Thompson, and be assured that I am happy for you in your new work. I will be happy to hear from you at any time.

Good luck!

Sincerely yours,

FCA:AH

Director of Physical Education.
