Doctor Allen,
Lawrence,
Kansas.

Dear Doctor:

I went to the capitol this morning and sold the Vocational Dept. for a four weeks course under you, for the sum of \$100, with the understanding with them that if I could not get information on training in four week that you would extend the time required. They are use to the students getting from four months to one years training for \$100.

You will receive a contract from them this week. I am ready to come any time that it is convenient for you. It will soon be time to plant my garden, but at the present I am not busy.

I am sending this special so it will ahead of the Vocational Dept. correspondence.

Resp.
