

March 3, 1939.

Dr. J. A. Billingsley,
Huron Building,
Kansas City, Kansas.

Dear Dr. Billingsley:

I have checked up on the date of April 13, and I am very sure that I can be with you at the Kiwanis banquet on Thursday. I judge that this is a noon meeting as usual, is it not? It was very nice of you to ask me to be the speaker at this banquet.

We are really going to endeavor to get a few tall boys for our Kansas varsity. This thing of six footers having to meet 6'7" and 6'5" men in every Big Six Conference team is a little too tough and wearing on the six footers. You just have to fight your heart out to stay even.

It was good to see you at Columbia. You know that we couldn't do much good. We have been licked many times before, but it seems we never get quite accustomed to it.

We appreciate your sincere friendship.

Cordially yours,

Director of Physical Education,
Varsity Basketball Coach.
