

Our sophomores are making a big improvement, but our older men are not hitting on all cylinders as yet. People get so accustomed to our winning that they will not accept the thought that Kansas will do anything but win the Big Six. The injury to Miller is, of course, by far the hardest rap that a football or basketball team could get. His knee is not at all strong and I doubt whether he will be of much use to us the whole year. But he is a great boy and a grand player. We certainly miss him. He is the very thing we need on this year's team.

But I remember lean years before. About ten years ago we won three out of eighteen games, so I guess I am still young enough to take it.

Wishing you the best of Yuletide greetings and the greatest of genuine pleasure to your entire family, I am

Sincerely yours,

Director of Physical Education,
Coach, Varsity Basketball.
