Kansas City, Mo.

Dear Mac:

I will call you Monday morning over a matter that I will not write about.

I am sending you a notice of our basketball interpretations meeting which I have sent out to 160 coaches of our district, which includes Missouri, Nebraska, Oklahoma, Iowa, North Dakota and Kansas.

I am also sending you a copy of the description of my new book, "Better Basketball, Incorporating Technique, Tactics and Tales". This book will make its appearance on or before December 1.

I will try to have time also to write you regarding the Johnny Bunn episode, two angles.

I know you must be enjoying the outing in Lincoln, Nebraska, today because the weather is wonderful. I am afraid those Huskers are going to be awfully tough.

Sincerely yours,

FCA:AH

Director of Physical Education.
