STUDENT COUNCIL

Dr. Forrest C. Allen,  
Department of Physical Education  
Kansas University,  
Lawrence, Kansas.

Dear "Phog":

I have just been checking over with the Camp Wood Committee regarding their Physical equipment for camp this season. We were going through the Lowe and Campbell catalog with a view of ordering such supplies as they would need for the camping season and came across the illustration of your GOAL-HI STANDARD. I have been very much impressed with this equipment as it might be used for both formal and informal activities at a camp.

If the camp were in position to purchase such equipment, they would of course order directly from the catalog, however it is necessary for the committee to exercise considerable care in expenditures for camp equipment. You have been at Camp Wood and know something of the number and type of boys who attend. They of course are representative of high schools throughout the state and naturally a large percentage of these boys go on to college. I would like to see these boys become acquainted with such equipment as GOAL-HI.

I wanted to present to you the question of whether you would like to give an OUTDOOR GOAL-HI STANDARD to Camp Wood as your contribution to Kansas Hi-Y boys. Most of the Camp equipment including cabins has come in the form of contributions from the many friends throughout the state. If you would feel so inclined, it would be greatly appreciated. Camp opens May 24 and continues throughout the summer.

With best wishes for your continued success, I am

Sincerely yours,

*Howard Boltz*
