Dear Sirs:

We have four wood Badminton Rackets in need of restringing, but before sending them to you for repair would like to know if you have the materials and facilities for doing this work. I would appreciate hearing from you before sending the rackets over to you.

Sincerely yours,

Director of Physical Education,

Dear Dr. Allen:

We have received payment from Miss Ruth I. Hoover, Girls Physical Director, on a charge of February 24th, but Miss Hoover did not pay this charge in full. Included among the items in the billing were six dozen arrows. Miss Hoover paid for only two dozen of these arrows, and sent us a note stating you would pay for the other four dozen arrows.

These were priced at \$3.25 a dozen, and the total charge for them is \$13.00 plus 26¢ tax.

We will count on you to mail us your check for \$13.26 in the enclosed envelope within the next day or so, now that the matter has been called to your attention. If there is any question about the arrangement, we will be glad to hear from you.

IMPORTANT--ABOUT YOUR BALL REPAIRS

We have one or more inflated balls that have been sent in by you for repairs. If these balls do not require a new bladder they will be repaired and sent to you as soon as possible.

If balls require new bladders, there is nothing we can do as new bladders are unobtainable. Only one rubber company in the U. S. makes bladders and they advise us that government orders make it impossible for them to supply us.

Unless we hear from you we will hold the balls until bladders are available. This, however, might be months. We regret this situation very much but under the circumstances we are powerless.

Dear Dr. Allen,

If you will send the Badminton Rackets in to us, we will be glad to string them for you. It will take approximately ten days to have this work done for you. We can give you gut stringing at \$3.95 or \$2.75 or the silk strings at \$2.40 or \$1.75.

If you want to send the rackets into us and leave it up to our judgement as to what strings to put in, we will be glad to take care of this for you.

Dear Doctor:

Every set of marking flags we have in stock are made up just like the ones you received - it isn't a 5 on the reverse side of the No. 2 Flag - it is simply the backside of the No. 2. If it were not made this way, the figure would show through the flag in the sunlight and there would be an intermingling of outline.

I have always contended that these flags should be made double so that the numbers would be right side up no matter which way the flag was blowing.

We do not list any golf course equipment in our catalog. D. B. Bell & Son, 72nd & Wornall Road, this city, specialize in golf course machinery and equipment, but I doubt if they have any recent catalog, because manufacturing restrictions for the past three years have made most catalogs valueless. Certainly, though, they can give you specific information regarding any items for which you are now in the market - I am sure they can supply you with the proper type of flag poles, and I agree with you that it is better to get a factory product than to attempt to improvise a substitute.

Yours for Victory,

Dear Sirs:

We are sending you by parcel post today five basketballs for repair. Two of these had been sent to your firm previously, and were returned with your "repaid" tag attached, but no work had been done of them.

We will appreciate the repair of these five balls at your early convenience.

Many coaches have told me - and I believe them - that the book is worth that much for this chapter alone, and that no other text carries it. Don't you agree with me?

Dear Marion:

You certainly were correct in calling my attention to the fact that I had overlooked the listing of the basketball books. I realize how valuable your space is in a catalog of that sort, and I will appreciate the boost in "The Coach".

With pardonable pride, after looking over the athletic books on the market, I think the chapter alone on Treatment of Athletic Injuries is something that none of the other books carry. Many coaches have told me - and I believe them - that the book is worth that much for this chapter alone, and that no other text carries it. Don't you agree with me?

Dear "Phog":

I have your letter in which you mentioned that your book "Better Basketball" is not listed in our 1943-44 fall and winter catalog but I am afraid that you did not look in the right place for it since the book heads the list of basketball books on Page 23. Likewise, it is again listed in our new fall catalog being mailed out this week.

You will find basketball books listed on Page 19 of the new catalog which will undoubtedly reach you within the next day or two.

I will be glad to give the book an added boost in an early edition of THE COACH and only regret that space does not permit a more detailed description of this and other books in our catalog.

Very cordially yours,

Dear Marion:

In the 1943-44 fall and winter catalog I fail to find a listing of my book, BETTER BASKETBALL. Since our coaching schools at Iowa and Topeka I find a great interest in the purchase of this book. Doubtless it is due to the fact that so many of the old time coaches are going back in the game and many new ones are coming on. Don't you think it would be a good idea to play up this book again?

Dear "Phog":

In keeping with your letter, I am sending one only No. BS4 King made basket ball shirt, which I understand you are to submit to your equipment man to see if you could use the three we have on hand here in Kansas City.

The other two I am retaining here in Kansas City are exactly like the one I am shipping - they are all size 38 and all in as good condition as the one I am sending.

I thought it advisable to hold the other two here so that if you could use this one No. 5 garment which I am sending you, I could number the other two with whatever numbers you might suggest. On second thought, you'll have to return this one I am sending, too, in order to get a numeral put on the back of it. All of this, of course, provided you can use the No. 5 garment as a fill-in on your present outfit.

I hope that these three we have, which I am quoting \$2.50 each on, will match up with some one of your outfits so you can use them. I would appreciate it, too, "Phog" if you will let me know immediately, because I am planning on leaving here in about a week or ten days. I am going up North and do a little fishing with Mr. D.K.C.

I am wondering, too, if you would be interested in one only King made sport *coat style* jacket, size 40, which is made of scarlet tackle twill and has the heavy worsted rib trim at the neck, cuffs and bottom bands, with Royal blue and white stripes in the center of these knitted parts. This garment is lined with white durene knit lining. It, too, is lettered "Kansas" across the front just exactly the same as these basket ball shirts, ~~I have~~, but of course there are no numbers on it. It is in first class condition, although just a tiny bit soiled from having been used as a sample. It ordinarily sells to the schools for \$10.15 each, and if you are interested I will be happy to dispose of it to you at \$7.00. This is a real value if you could use it on any one of your team members, or perhaps as a gift to some one of your sons, or anybody else that will fit a size 40 garment. I'd be glad to send it to you on approval.

Incidentally, I am not charging this one jersey I am sending you - merely holding a memorandum on it.

F. C. Allen - 8/3/44

Believe me, basket ball paraphernalia of any kind or description is going to be mighty scarce this winter, and we are already experiencing a great deal of difficulty in taking care of some of our football orders. With more to come, we are going to be in quite some embarrassing position, I am afraid.

Dear Red:

I will be glad to look at these shirts and see whether we can use them or not. When they arrive I will turn them over to Dean and have him check up on sizes and numbers, and if we can use them we will send a couple of them back to have different numbers on them.

If they are not exactly like the equipment we have then of course you understand we cannot use them.

Ernie is to arrive on the job this morning, and with his enthusiasm and energy I am sure that he will make a definite place for himself in the recently rather unaccelerated department of the directorship.

Dear "Phog":

I have three very high grade --all size 38--King Sportswear made basketball shirts in Kansas colors, scarlet with royal blue and white trim around the neck and armholes. Each of these shirts do have the supporter feature and are lettered with the word "Kansas" across the chest in fancy block felt letters about two and a half inches high royal blue with white outline.

All three of them have the number 5 on the front under the word "Kansas", which is also the same color as the lettering. There are no numerals on the back.

These numerals could be removed and replaced with the proper numerals and we could put numbers on the back for you.

Would you be interested in taking these slightly soiled salesman's samples off our hands? This particular shirt is a particularly heavy good rayon finished shirt with the durene back and ordinarily sells for \$4.50 without the lettering or numbers. If you want them as they are, I'll be glad to sell them to you at \$2.50 each.

The thought occurred to me that you might be able to use these as fill ins on some suits that are undoubtedly similar or maybe exactly like these.

Let me know if you're interested and I'll be glad to send them to you on approval.

I was very much surprised recently to hear of Quigley's appointment because I had no idea that he had any aspirations for such a job but unquestionably he should be well qualified and should do a fine job for the University in that capacity.

Give my kind regards to the family and don't fail to drop in to see us sometime when you're down this way.
