

Many coaches have told me - and I believe them - that the book is worth that much for this chapter alone, and that no other text carries it. Don't you agree with me?

Dear Marion:

You certainly were correct in calling my attention to the fact that I had overlooked the listing of the basketball books. I realize how valuable your space is in a catalog of that sort, and I will appreciate the boost in "The Coach".

With pardonable pride, after looking over the athletic books on the market, I think the chapter alone on Treatment of Athletic Injuries is something that none of the other books carry. Many coaches have told me - and I believe them - that the book is worth that much for this chapter alone, and that no other text carries it. Don't you agree with me?

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
