Dr. F. C. Allen,
Athletic Department,
University of Kansas,
Lawrence, Kansas.

Dear "Phog":

I have three very high grade --all size 38--King Sportswear made basketball shirts in Kansas colors, scarlet with royal blue and white trim around the neck and armholes. Each of these shirts do have the supporter feature and are lettered with the word "Kansas" across the chest in fancy block felt letters about two and a half inches high royal blue with white outline.

All three of them have the number 5 on the front under the word "Kansas", which is also the same color as the lettering. There are no numerals on the back.

These numerals could be removed and replaced with the proper numerals and we could put numbers on the back for you.

Would you be interested in taking these slightly soiled salesman's samples off our hands? This particular shirt is a particularly heavy good rayon finished shirt with the durene back and ordinarily sells for \$4.50 without the lettering or numbers. If you want them as they are, I'll be glad to sell them to you at \$2.50 each.

The thought occurred to me that you might be able to use these as fill ins on some suits that are undoubtedly similar or maybe exactly like these.

Let me know if you're interested and I'll be glad to send them to you on approval.

I was very much surprised recently to hear of Quigley's appointment because I had no idea that he had any aspirations for such a job but unquestionably he should be well qualified and should do a fine job for the University in that capacity.

Give my kind regards to the family and don't fail to drop in to see us sometime when you're down this way.

Yours truly,

LOWE & CAMPBELL
