Gentlemen:

We are in receipt of State purchase order No. 1827 calling for two No. 87M Climbing ropes- $1\frac{1}{2}$ inch diameter with attachment for wood beam. We in turn have ordered the rope from the Fred Medart Manufacturing Company in St. Louis. They have written us today asking that we write you regarding the distance from the floor to the under side of the wood beam to which the ropes are to be attached. This information is very necessary in order that they may know how long to make the rope.

They have also asked for the priority rating. It is our understanding that schools are privileged to send an A-10 rating or "Maintenance Repairs and Operations". Also please advise us the end use symbol. Blanks for your convenience are enclosed. It will be appreciated if we may have this information by return mail.

Yours for victory,

Dear Charlie:

I am in receipt of your letter of the 14th instant concerning our order No. 1827 for two No. 87M Climbing Ropes, $1\frac{1}{2}$ in. in diameter with attachment for wood beam.

In reply to your question, the distance from the floor to the under side of the wood beam to which the ropes are to be attached is 16 feet.

I am sending the blanks for priority rating to the University Business Office, asking them to forward this information to you.

Sincerely yours,

Dear Doctor:

Honestly, I doubt if even the shipyards could supply "gunboats" in the size which you require. We have nothing as large as 15, and there isn't a Chinaman's chance to get them made on special order under present manufacturing restrictions.

We do have a few pairs of size 14, so about the best suggestion I can make is that you get a pair of these for "Suitcase Simpson" and convert them to the popular toeless style instead of the old-fashioned toe lace style!

Thank you for your letter of November 9. As you say, the invoice for \$4.97 was paid just a day or so ago by the University and the remaining balance, \$1.10, was also settled by the Department of Physical Education. Due to an oversight on our part, however, the credit for \$1.10 was entered on the University account rather than on your personal account.

We have made the proper correction, placing your personal account in balance and hope that you will pardon us for any inconvenience caused.

Thank you for your kind letter of August 31 advising me that it is impossible for you to fill our order for two #N288 Turf Bowling sets. At the present time I do not think we care to substitute the Rob-o-ling set, and if you will give us a credit memo on the Turf Bowling order I will appreciate it.

Now, here is another thing. During our summer session just past when we used our Turf Bowling sets in the recreation program, we lost one of the "jack" balls. I am wondering if it is possible to replace this ball, to make the set complete. Will you please quote a price on this.

Dear Dr. Allen:

As you know, for some time we have been trying to secure two #N288 Turf Bowlingsets for you but have never been able to get delivery on them from the factory. We have just learned that there will be none of these sets available. The factory has written us that the government has stopped all production on these sets as they use materials essential to the war effort, and therefore, will not be able to complete any orders.

We are certainly sorry to have taken so long to get this information. May we suggest that if you planned on using the Turf Bowling set indoors that you consider the Rob-o-ling set which is listed in our new catalogue just off the press. You probably have a copy of it by now but if it did not reach you it should within the next day or two for they were mailed out this week. This set is shown on page 105. It consists of 10 official maple pins, 2 walnut skulls with button skids. Its price is wholesale \$19.85. Also ideal for indoor use is #N286 bowling set. This set consists of ten molded sponge rubber pins and three sponge rubber balls. It can also be used outdoors very satisfactorily. If you find that either of these would be all right for your use, we could make immediate deliveries for we have both of them in stock now.

Dear Sirs:

I have your statement of account dated October 31, and wish to straighten out two of the items.

The item of \$4.97 is being paid by the Physical Education Corporation (Athletic Association), and should be taken off of my charge account. The item of \$1.10 was paid by the Department of Physical Education, POV #1115.

I have sent these orders to you and had them charged to my personal account as a convenience. Many times this has saved a delay, and I would collect the money from the persons ordering items, then send you my check.

I do not believe there is a balance due you at the present time.

Dear "Fogg":-

I was on your campus this summer, playing a game called "Aeirial Dart", with a piece of solid rubber, with six feathers stuck in it. A wooden paddle was used.

This game is known in the West, but apparently not in the East, for I cannot find a catalog in New York City that has it listed, or anyone who has ever heard of the game.

I am with the U.S.O. Club in Bridgeport, Conn., and would like very much to secure two dozen of these darts. Could you put me in touch with the Company from whom you buy them, or, if you have an extra dozen, I would buy them direct from you.

Hoping to have this information as soon as possible, I am,

Certainly sorry about the error in the size of the basketball shoe. Apparently, it was filled without looking inside the box and that is where the mistake occurred.

There was only one pair of shoes the size 14 left, and that was the black Converse leather, which we have sent to you today, and are billing on the attached invoice at \$4.50. We are not charging you any postage on the package, since it was necessary for you to pay the postage on the returned shoes.
