Dear Doctor:

Yes, we know exactly the type of shoulder brace you want for Dr. Hurley's son, but I am sorry to say that we will not be able to make one for you. We do not have any of the elastic, and can't get it - we do not have any of the chamois, and can't get that either.

About all I can suggest is that something suitable might be obtained from the Physicians and Surgeons Supply Company - such firms are able to get materials which would not be obtainable by anyone in the athletic goods industry.

I am sending copy of this letter to Dr. Hurley to save you the trouble of writing you on the subject.

Yours for victory,

Les
