

February 25, 1938.

Mr. C. O. Burnside, Manager,  
Carpenter Paper Company,  
Oklahoma City, Oklahoma.

Dear Friend Cobs

Of course you know that we appreciate the many nice things that you did for us and our boys when we were in Oklahoma City. The boys speak of you often and think that you are the Number One Kansas patriot in Oklahoma.

It was a great pleasure to visit with you and Dorothy and the other fine Oklahoma alumni. It was a source of regret, however, that we could not spend a little time over at Dean Mechem's home with you and the rest, but it just wasn't in the book.

We had an awful time with Iowa State up at Ames. With six minutes to go Iowa State pulled up within two points of us. We were jittery and did not look good. Just a natural let-down after the high tension at Norman. However, we are still hanging on by a thread, and I am praying that we will pull out yet. We have a tough one at Lincoln tomorrow. Driving up in the morning, leaving here at 8 o'clock in a big bus, and we hope to knock them off. But, brother, they are going to be tough. And do you think I don't know it!

I am in the same condition as when I wrote you before we started down to Norman. I am scared stiff, and I hope they are. But they have no pressure on them, so why should they be scared of anything.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
