Mr. Frederick W. Lang
Lang Foot & Arch Normalizer Co.
Forsyth, Georgia

Dear Mr. Lang:

I saw Van K. Bruner on the golf course yesterday afternoon and he said that he had received the normalizer and appeared to be happy. I just shouted at him from a distance but I am quite sure that he will be pleased with it.

I was playing golf with Mr. Irving Hill, President of the Lawrence National Bank, and was telling him about it. But I did not get to the point where I offered to send him one because I did not want him to feel that I was trying to force anything on him. He has some knee trouble, especially if he carries his golf bag and that is why he uses a caddy. He really likes the exercise but his knee bothers him and I told him about the normalizer. In another week I believe he will want one because I believe in them very definitely for conditions such as his.

Thank you very much for the check from the University of Oklahoma. You remember I wrote Tom Stidhan quite some time ago about it. Oklahoma is always a little slow but they are sure. I am glad that Ohio State is coming through. I will write to Jimmy Cox at Harvard and see if he will not send you a check.

Elwyn Dees told me that they are trying to get a new training room and he was waiting until they got that before he ordered. He said he wanted a couple. I told him I would not wait for a new training room because I considered the normalizer too valuable to wait that long. However, Elwyn is a Dutchman and he takes his own sweet time.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach
