

Roll Away

Your Foot Troubles

## LANG FOOT-ARCH EXERCISER CO.

FORSYTH, GEORGIA

Dear Dr. Allen:

February 19, 1940

Would you mind writing me something like the enclosed copy. I will promise not to use it for advertising. I would like very much to have it for my own files. I have quite a nice collection of them now.

The Normalizer has been accepted by the Kirksville College of Osteopathy for use in their foot clinic. It is being tested out now by the Des Moines Coll. of Osteopathy. Business is terrible. Weather awful. Ten miles of mud up to my axles to get to town.

Sincerely yours,

*JW Lang*
