

LANG FOOT & ARCH NORMALIZER ROLLS AWAY YOUR FOOT TROUBLES

For the first time in three months, I walked out of the store today with feet that felt like feet. (Sales Lady, Atlanta.)

For years I have suffered from soreness in the calves of my legs and hips. I have been free from pain now for the first time in years. All due to your "Normalizer". (Nationally known Motion Picture Scenario Writer, Santa Monica, Calif.)

Up to May, 1935, due to an accident two years ago, I was unable to stand unassisted upon either foot, and unable to walk without difficulty and limping. After three months' use of your Normalizer can now stand upon either foot and walk without limping. (Auto Parking Station Operator, Brooklyn, New York.)

Before using your Normalizer both feet pained like an old fashioned toothache. After three months' use, I am playing tennis twice a week from one to four hours at a time. Wishing you great success with your "painkilling" device. (Barber, Piedmont Hotel, Atlanta.)

I have used your device with real satisfaction. (Doctor, New York.)

I consider it a good piece of apparatus and use it frequently in my clinic. (Doctor, Newark, New Jersey.)

I have had extremely gratifying results with same, and wish you the greatest success. (Doctor, Macon, Georgia.)

After four months' use I feel with the results thus far obtained that your device can do more to break up adhesions, place the arches in normal position, and develop the muscles and ligaments of the foot than anything I have as yet seen. (President, Georgia State Board of Chiropractic Examiners.)

There is no doubt that muscular tone of the foot and leg is tremendously improved and articular motion is definitely enhanced. (ex-President, Eastern Osteopathic Association, New York City.)

Your little device is so simple it is astonishing the results that it accomplishes. (Treasurer Mfg. Corp., Havana, Ill.)

I have completely removed that tired feeling and thru its daily use am strengthening my arches. (Editor, Walking Magazine, New York City.)

I have tested your machine and am satisfied that it would be of great benefit to officers and others suffering from flat feet. (Chief of Police, Atlanta, Ga.)

In my opinion your device deserves great praise. I shall be pleased to recom-
