

Roll Away

Your Foot Troubles

LANG FOOT & ARCH NORMALIZER CO.

FORSYTH, GEORGIA

February 9, 1940

Dear Dr. Allen:

Yours of recent date received. Glad to know that my bookkeeping was O.K. Even we in the sunny South have been snowed in. Business has been at a stand-still for some weeks. We hope for an improvement when weather conditions become normal again.

Regarding Bill Saip, Don Elser and Quigley at least they have gone so far the time to return same has gone by. No doubt I will get their checks soon. I will bill them again soon.

There is a little hill billy school in the mid west which does quite a lot of good and from time to time I help them out. Have you any old basketball, foot-balls, uniforms, or any athletic equipment that is no longer fit for your use. If so they could use it to good advantage no matter how much used it is. Will you let me know and I will give you their address and I will pay the express charges.

With kindest regards, I am,

Sincerely yours,

A handwritten signature in cursive script that reads "Frederick W. Lang".
