

December 1, 1939.

Mr. F. W. Lang,  
Forsyth, Georgia.

Dear Mr. Lang:

Upon my return from Cleveland I find your letter of November 25th. I do not believe I would send another Normalizer to C. C. Carl, since he has returned the first one you sent. It may be that the failure of the machine to roll freely caused him to return it.

Mr. Stephenson said that his stuck and wore a hole in the end, and he said he was going to send it back to you in exchange for another one. I believe I would inspect all of them pretty closely before mailing them out.

Dean Schwegler and his wife are both very much better, and are enjoying their Normalizer.

I took my Normalizer to Cleveland with me and showed it to H. G. Olsen, head basketball coach of Ohio State University, and to L. W. St. John, the director of athletics at Ohio State. I told them that you would be glad to send each of them a Normalizer on a thirty-day trial. It might be well for you to write both of these gentlemen. You could tell them that I wrote you and suggested that you write to them.

Sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball Coach.
