

Mrs Evelyn Walsh McLean
"Friendship"
Washington, D.C.

My dear Mrs McLean: Having just read in the newspaper where your home is now being used for Red Cross work the thought just struck me that you might be able to get a free donation of a foot exercising machine which would be a wonderful aid to War Nurses or nurses as a class.

It is something more or less new and I just learned of it while in Atlanta this past fall teaching at a coaching clinic. I purchased three for use at our University and they are being used with beneficial results.

I am certain that if you would write to the inventor Mr. Frederick W. Lang, Forsyth, Ga. stating your worthy cause that he would be pleased to contribute some of his devices for such a wonderful cause.

With kindest regards and all good wishes to you in your Red Cross work.

Cordially yours,
