Lang Foot & Arch Normalizer Co.
Forsyth, Ga.

Dear Sirs:

Early last fall Coach Mehre asked me to try out your Foot and Arch Normalizer in our physio-therapy department.

Following his request I found this device a great help in the treatment of athletic injuries for the foot, ankle and leg. It is fine for loosening up the injury of a foot after a dislocation or fracture, especially after the injured part has been immobilized for some time.

I have used it successfully in loosening up wrists after fractures, and "charlie horses" can gently be rolled out with this apparatus.

It does all that you said it would in building up weak and fallen arches.

Very truly yours,

Clarence W. Jones
C.W. Jones
Athletic Trainer.
