Dear Mr. Livingston:

As president of the Lawrence Country Club, I have been endeavoring to prepare the membership for the possibility of our building a swimming pool at our club house this year as soon as priorities and finances permit.

If you have some figures on some of the country club pools in Kansas I would appreciate your giving me some figures. And too, if you should be going through Lawrence, Kansas, any time I should like for you to stop by and I would drive you out to the club and look over our grounds. We want an outdoor swimming pool adjacent to the club house.

I would appreciate an early reply.

Very sincerely yours,
