I am sonding you a copy of Deen Lawson's letter which referred to your work in our department of physical education. I am also sending a copy of my reply to Dean Lawson to you. You can appreciate that errors of omission and commission causes a lot of unhappiness.

I felt it only fair to you that you should know that your errors have been the cause of difficulty.

Dear Dean Lawson:

Acknowledging your two letters of July 4th and 5th, I have enclosed the cards and the letter in a note which I have sent to Miss Hoover, askingam asking for her recommendation before returning the cards to your office.

In regard to Mr. Shaake's negligence, I assure you that no one regrets that more than I. We have Mrs. Hulteen diligently checking these records for several years now, and in my opinion she is without a doubt the most efficient secretary who has worked for this University for years. When errors like this creep in with Mrs. Hulteen on the job, I am not too optimistic regarding our ability to carry on without any errors.

We have had similar errors in other colleges, and they have been adjusted but we have been able to survive through the war effort, and still keep our equiminity.

Regarding your request that hereafter Mr. Shaake not be placed in charge of instruction physical education classes, I am referring that matter to my superiors in administration.

Sincerely yours,

Doctor F. C. Allen Department of Physical Education University of Kansas

My dear Doctor Allen:

On March & of this year William W. Dewolf enrolled in Physical Education. He withdrew from all his classes March 26, to join the air corps. The records show that in spite of being in school just three weeks he was given a grade of D for the entire semester's work by Mr. Schaake.

You will recall that several times previously I have called your office about errors of this and other sorts made by Mr. Schaake. Such errors repeated semester after semester have caused me to lose all faith in the way in which he keeps his records, and consequently, in the grades which he turns in at the end of the semester.

I am writing, therefore, to ask that hereafter Mr. Schaake not be placed in charge of any class in Physical Education.

Sincerely yours,

Paul B. Lawson, Dean

Dear Helen:

Another Phog Allen procrastination. As soon as your letter arrived I kicked myself mentally, and said, "Allen, don't you remember that conversation with the affable lady in red? You promised her a Rebounds." Well, I sent the Rebounds immediately after your welcome letter of the 5th arrived, and you are on the mailing list from now on.

How those names - Twink Starr, John Wall, and Potsy Clark are associated with thrilling events! Twink was one of our shining stars, and John "Stony" Wall kicked that field goal against Missouri after the gun had fired announcing the end of the game, and what a victory Kansas celebrated. And Potsy Clark - what an enthusiastic and vehement coach he was!

I understand Potsy is at Okinawa, - or maybe it was Iwo Jima. Anyhow, Ad Lindsey and Potsy are both there.

Tell your husband that I am glad he is waging a crusade against the gambling element because if we do not strangle some of that activity, our high school and college games will be on the decline. Thank you for the clipping from the Honolulu State-Bulletin.

Our kindest regards to you and your good husband.

Very sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

## LONG HOPS WITH LOUI

### About Dis 'n' Dat In Sports.

When Dr. Forrest C. (Phog) Allen, outstanding athletic figure in the midwest section of the United States and veteran

basketball coach at the University of Kansas, yelled "wolf" several months ago and asserted that a basketball "scandal that would stink to high heaven" was in the making, most of the folks laughed at him.

But today they've changed their tune. The oldtime mentor really had something on the

ball when he made the charge.

To be sure, the so called scandal hurts intercollegiate sports competition in more ways than one. And on this point the Kansas U. mentor places the blame for it squarely on the National Collegiate Athletic association (NCAA).

Dr. Allen

He scores the NCAA officials for sending the basketball teams right into the nest of professional gambling and then, in the next breath, deplores betting on collegiate athletics.

"The National Collegiate Athletic association met in Columbus in January and expressed 'regret' at the prevalence of gambling on intercollegiate sports," Allen revealed. "But they continue to team up with professional promoters to hold tournaments in arenas where everyone knows big time gamblers operate in hordes."

"What a paradox," yelled Phog.

"It is a sad commentary on the NCAA," Phog observed, "when with the top teams of the nation it is forced to seek aid from professionals to conduct its own tournament.

"The political oligarchy of the NCAA is busy keeping a self-perpetuating group in power rather than trying to smash at the cancer eating

at the heart of intercollegiate athletics," Allen contended.

"They'd better get busy or intercollegiate sports will be deader than door nail. These Brooklyn gamblers charged with giving bribes are just small timers. Just peanuts.

"There are some really big operators back east. It will take more than talk to stop those babies," the colorful veteran coach believes.

Dear Friend Lind:

It was good to hear from you as of January 31, enclosing a tear sheet from the Chicago Sun.

I have had a lot of fun with these big-wigs in the N.C.A.A. They have done a lot of talking and little acting, and they are now doing a lot of political shadow boxing.

I note your change of address and know that you must feel unhappy to be disarticulated from old Wittenberg. I certainly would liked to have had you with me here, but changes have taken place that I imagine will never work out the way that I wanted them to for you.

May this darn war be over soon and may everybody be back on a more even keel. It was good to hear from you. My kindest regards to you and yours.

Dear Phog,

Happy New Year!

As much as I was distressed by the recent Brooklyn-Akron tampering, I was delighted, too, because it came at a time when your honest charges needed more specific example.

You know, as well as I know, that truth in most of its forms is more than unwelcome by most human beings, and I am certain that your fearlessness (based upon a love of good sport) would necessarily bring some noisy denial.

But may your right arm be strong whenever and wherever you dare to continue to speak the truth.

Yours sincerely,

Dear Dr. Allen:

Many thanks for your letters of Aug I4 and 20th. I havent heard anything from either of these prospects as yet.

Al that was possible to do during the War was to crawl along at a snails pace. From now on material is available.

Yours of the I4th sounds interesting as I am now engaged head over heels in an industrial develop-ment just out of the City limits of Atlanta that has all the mymptoms of being a winner so I havent much time to devote to anything else. I do think that it about six months too soon for the Foot Normalizer business until more of the Army boys return and make salesmen available. Specialty shoe salesmen should handle this as a combining line. I tried this out and it works.

I do not know what to offer you on a deal why dont you give a little thought to what way you could work this to our mutual advantage. After all if we do not both stand to benefit it would be foolish to make a deal. Give this some thought as I am now in a mood to free myself for this new venture.

I look for a five year period of great business activity and plenty of money in circulation. Those are the only times that money can be made.

Sincerely yours,

Mr. George E. Little Director of Athletics Rutgers University New Brunswick, New Jersey

Dear George:

I do not know of two finer basketball coaches in the country than Arthur "Dutch" Longorg or Johnny Bunn. Both of the boys played football and basketball for me when I was coaching both sports back in 1920. "Dutch" graduated with an LLD degree in the Law College, and Bunn has a succession of degrees, Engineering, Education, and is not far from his Doctorate. Adolph Rupp, of the University of Kentucky, and Foresty Cox, of the University of Colorado, and Louie Menz, Athletic Director and Basketball Coach at Iowa State College, are others.

I do not know that I put the last three in the order named, but they are a little younger. Rupp played only basketball, while Cox played football, and Menz played football, basketball, and baseball.

Bunn assisted me in basketball before going to Stanford, and Lonborg coached my freshmen. Cox followed Bunn as my assistant.

If there is any further help that I can render you in the way of information, please feel free to ask it.

My regard and friendship for you is truly reciprocal. I do appreciate you kind remark. Mrs. Allen will be happy to hear from you. We have three service stars, but we are thankful to the Almighty that all of them came through. However, the grandparents have gone to war in a big way. We have alternately taken care of several families of our children, but it has been a lot of pleasure.

Dear friend "Phog":

I have always had the highest regard for you as a man and as one of America's leading basketball coaches. There will be a vacancy here in the Department of Basketball, this year, and I would appreciate any recommendations you might be prompted to make.

I have felt, too, that you might be justified in placing your protege, "Dutch" Lonberg of Northwestern, high on your list of coaches, whom you have developed; also, Bunn, your former assistant, who went to Stamford, following which he was appointed Dean of Men.

You may have many more of their calibre, but I do know that sound, potential and successful basketball coaches are rare.

Would appreciate hearing from you and will express our appreciation for your attention to this confidential matter in advance. Incidentally, we will be pleased to reimburse you for any expense incurred.
