Dr. Forrest C. Allen
Director, Physical Education
University of Kansas
Lawrence, Kansas

Dear Phog,

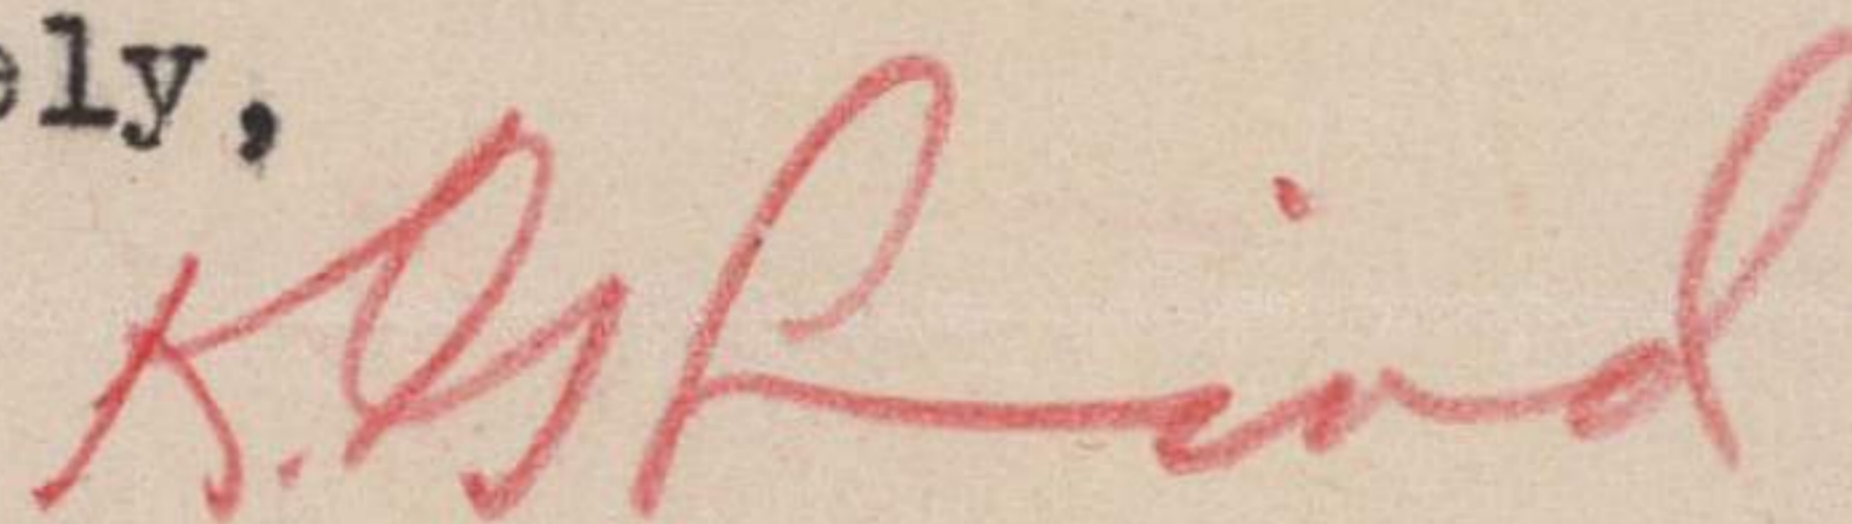

Happy New Year!

As much as I was distressed by the recent Brooklyn-Akron tampering, I was delighted, too, because it came at a time when your honest charges needed more specific example.

You know, as well as I know, that truth in most of its forms is more than unwelcome by most human beings, and I am certain that your fearlessness (based upon a love of good sport) would necessarily bring some noisy denial.

But may your right arm be strong whenever and wherever you dare to continue to speak the truth.

Yours sincerely,

K. G. Lind

Ps. For two years now I have been advertising manager of this good company, because enrolments at Wittenberg College, even before Pearl Harbor, were in such sharp decline that there is not much more than a ~~shelf~~ ^{shell} left of faculty and student body.

Ps. 2. I have enclosed today's clipping from a Chicago paper which may have reached you earlier.
