Your Foot Troubles

## LANG FOOT & ARCH NORMALIZER CO.

FORSYTH, GEORGIA

April 21, 1943

Dr. Forrest C. Allen  
University of Kansas  
Lawrence, Kansas

Dear Dr. Allen:

Your letter of April 16th. was just received. I am delighted to know that you are still in the land of the living and that you are feeling so well.

The man who made my machines died about a year ago but I have about twenty five on hand. After this stock is sold it would be rather difficult to have any more made unless it was an order for the Army or Navy.

In as much as I do not get to my farm at Forsyth as regularly as I used to, if you will address me at the Y M C A, Atlanta, Ga. and addressing me personally I would get the letter much quicker. I have a machine here now that I could send to Dr. Peete if he still desires one. I always try to keep at least one machine with me in Atlanta all boxed ready to send off.

Now that my State position has terminated I have not as yet been able to make another connection. I have one very good position under advisement but it would require my travelling the eleven southeastern States and that is not easy work these days even tho there is no selling attached to the position. I would rather accept less money and have a position right here in Atlanta. That is what I am trying for now.

With kindest regards and best wishes, I am,

Sincerely yours,

A handwritten signature in cursive script that reads "F W Lang". The signature is written in dark ink and is positioned above the typed name.
