Dr. F. C. Allen  
University of Kansas  
Lawrence, Kansas

Dear Dr. Allen:

We expect to elect a man to direct our athletic program at Bonner Springs next year. He will be expected to coach the major sports, and should be qualified to teach some mathematics.

Perhaps it will be intelligent to consider men at least thirty five years of age who are reasonably safe from the draft.

My reason for writing is to ask you if you can suggest two or three good men whose records are impressive. I believe we will pay for the right man.

We want a man who can handle and inspire boys, and is willing to spend time with them. You, Dr. Allen, know what it takes.

May I hear from you? Thanks.

Yours truly,

BONNER SPRINGS PUBLIC SCHOOLS
