Dear Dr. Allen:

In scanning the paper the other day, I noticed where you are giving us Wichitans a big break and are going to bring your boys to our fair city in an endeavor to break down the Shockers' morale for the remainder of the season.

Dr. Allen, I would certainly appreciate the opportunity to call this ball game for you. It seems that a person has to have the recommendation of someone like you before he can break into the big-time games, and I would like to show you that I am a capable official.

I will appreciate every consideration possible.

Very truly yours,

Bud Browning
