Dr. Forrest C. Allen
Robinson Gymnasium
Campus

My dear Dr. Allen:

The closest that I can figure the cost of new lumber needed in the construction of my daughter's play house is \$20. Therefore, I am enclosing a check for 25 per cent of this amount, or \$5, in payment for the 4x4's and the shiplap siding which I took from the handball court pile.

Your courtesy in letting me have this lumber at this price is greatly appreciated.

Cordially yours

Kenneth K. Landes
